"The automotive maven and former Member of Parliament might be the most trusted man in Canada, an inverse relationship to the people he writes about." — The Globe and Mail
Lemon-Aid shows car and truck buyers how to pick the cheapest and most reliable vehicles from the past 30 years of auto production. This brand-new edition of the bestselling guide contains updated information on secret service bulletins that can save you money. Phil describes sales and service scams, lists which vehicles are factory goofs, and sets out the prices you should pay. As Canada ’ s automotive "Dr. Phil" for over 40 years, Edmonston pulls no punches. His Lemon-Aid is more potent and provocative than ever.
A guide to buying a used car or minivan features information on the strengths and weaknesses of each model, a safety summary, recalls, warranties, and service tips.

Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have gained market shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new Lemon-Aid Used Cars and Trucks 2012-2013 has the answers, including: More vehicles rated, with some redesigned models that don ’ t perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. More "secret" warranties taken from automaker internal service bulletins and memos than ever.

"Provides service and repair information for the fifth generation, also known as the A5 platform 'Volkswagen Jetta'"--Provided by publisher.

The 2010 International Conference on Web Information Systems and Mining (WISM 2010) was held October 23 – 24, 2010 in Sanya, China. WISM 2010 received 603 submissions from 20 countries and regions. After rigorous reviews, 54 hi- quality papers were selected for publication in the WISM 2010 proceedings. The acceptance rate was 9%. The aim of WISM 2010 was to bring together researchers working in many different areas of Web information systems and Web mining to foster the exchange of new ideas and promote international collaboration. In addition to the large number of submitted papers and invited sessions, there were several internationally well-known keynote speakers. On behalf of the Organizing Committee, we thank Hainan Province Institute of Computer and Qiongzhou University for its sponsorship and logistics support. We also thank the members of the Organizing Committee and the Program Committee for their hard work. We are very grateful to the keynote speakers, invited session organizers, session chairs, reviewers, and student helpers. Last but not least, we thank all the authors and participants for their great contributions that made this conference possible.

The latest values of collector cars based on six different grades of condition can be found in a comprehensive reference that has some 250,000 listings for domestic cars and light trucks, and various import vehicles manufactured between 1900 and 1999. Original.

Erin Hogan hit the road in her Volkswagen Jetta and headed west from Chicago in search of the monuments of American land art: a salty coil of rocks, four hundred stainless steel poles, a gash in a mesa, four concrete tubes, and military sheds filled with cubes. Her journey took her through the states of Utah, Nevada, New Mexico, Arizona, and Texas. It also took her through the states of anxiety, drunkenness, disorientation, and heat exhaustion. Spiral Jetta is a chronicle of this journey. A lapsed art historian and devoted urbanite, Hogan initially sought firsthand experience of the monumental earthworks of the 1970s and the 1980s—Robert Smithson ’ s Spiral Jetty, Nancy Holt ’ s Sun Tunnels, Walter De Maria ’ s Lightning Field, James Turrell ’ s Roden Crater, Michael Heizer ’ s Double Negative, and the contemporary art mecca of Marfa, Texas. Armed with spotty directions, no compass, and less-than-desert-appropriate clothing, she found most of what she was looking for and then some. " I was never quite sure what Hogan was looking for when she set out. . . or indeed whether she found it. But I loved the ride. In Spiral Jetta, an unashamedly honest, slyly uproarious, ever-probing book, art dosen ’ t magically have the power to change lives, but it can, perhaps no less powerfully, change ways of seeing. " —Tom Vanderbilt, New York Times Book Review " The reader emerges enlightened and even delighted. . . . Casually scrutinizing the artistic works. . . while gamely playing up her fish-out-of-water status, Hogan delivers an ingeniously engaging travelogue-cum-art history. " —Atlantic " Smart and unexpectedly hilarious. " —Kevin Nance, Chicago Sun-Times " One of the funniest and most entertaining road trips to be published in quite some time. " —June Sawyers, Chicago Tribune " Hogan ruminates on how the work affects our sense of time, space, size, and scale. She is at her best when she reexamines the precepts of modernism in the changing light of New Mexico, and shows how the human body is meant to be a participant in these grand constructions. " —New Yorker
