It has been a damned nice thing – the nearest run thing you ever saw in your life. The history of a battle, is not unlike the history of a ball. Some individuals may recollect all the little events of which the great result is the battle won or lost, but no individual can recollect the order in which, or the exact moment at which, they occurred, which makes all the difference as to their value or importance.

"Soldiers of the 39th and 85th Infantry Regiments," he told two units that had run away during a battle in 1796, "you are no longer fit to belong to the French Army. You have shown neither discipline nor courage... the chief of staff will cause to be inscribed upon your flags: 'These men are no longer of the Army of Italy'."

"The damn-nearest run thing you ever saw in your life". Retiring from the Army he entered politics where he became a leading member of the Tory Party. In 1828 he became Prime Minister and though deeply conservative he was ever the pragmatist and forced through the Catholic Emancipation Act thus ending hundreds of years of religious division and exclusion.

The phrase 'a damn close run thing' is often attributed (incorrectly as it happens) to Sir Arthur Wellesley, the 1st Duke of Wellington in reviewing his victory over Napoleon Bonaparte at the Battle of Waterloo. Whoever wins the United States presidential election in November 2012, almost certainly will be entitled to pass the same judgment....

A Damn Close-Run Thing. As Monday was a Bank Holiday, Dean 's girlfriend had gone to America for three weeks and Ninjasaurus Rex was awake, we gathered together for our first game of Blücher, the new Napoleonics rules from Sam Mustafa. It has been over a quarter of a century since I last played a Napoleonic wargame (besides two games of Shako, fifteen years ago...), so I was looking forward to this as I have also been wanting to get back on the Napoleonic horse for a while.

It is a trite saying that hindsight is a wonderful thing and it is very easy to criticize. But the fact that we did, in the end, produce the Companies Act 2006 does, I think, give us the right to say how our task could have been made easier. It was a damn close run thing, but in the end it happened.

"It was a damn close-run thing" – Major-General Moore, commander of the British land forces in the South Atlantic In 1982, the average Briton didn't know the Falkland Islands existed, let alone their status as a disputed British territory just off the coast of Argentina. That changed when the Argentinians invaded the islands and overwhelmed the small defending force. Both nations claimed the islands were theirs, but now Argentina thought the British would give them up without a fight. They were wrong. Britain sent a task force into the South Atlantic to re-take the islands, and the short, intense war that followed was-in the words of Major-General Sir John Jeremy Moore—"a damn close-run thing." This short history sums up the events leading up to the war and its major military actions including details of an Argentinian plan to sink a Royal Navy ship in Gibraltar harbour (foiled at the last minute by Spanish police) and an audacious British plan to land SAS soldiers in Argentina to destroy Exocet-carrying aircraft while they were still on the ground.

Shoot the Damn Dog blasts the stigma of depression as a character flaw and confronts the illness Winston Churchill called 'the black dog', a condition that humiliates, punishes and isolates its sufferers. It is a personal account of a journey through (and out of) severe depression as well as being a practical book, offering ideas about what might help. With its raw, understated eloquence, it will speak volumes to anyone whose life has been haunted by depression, as well as offering help and understanding to those whose loved ones suffer from this terrifying condition.

Two Thrilling SF Books in One An unseen invasion: the ultimate threat... When a mysterious spacecraft is uncovered in the North Carolina mountains, agent Pat Vogt's life begins to look increasingly alien. Betrayed by her own government, she's forced to unravel a conspiracy that holds implications for existence on Earth...and beyond. Years later, Vogt returns to find the mountain town of Waynesboro fostering secrets much darker than she'd ever imagined. Even her closest ally, Dr. Allen Pritchard, withholds crucial information, and his desire to mend a painful past may jeopardize the human race. Who is genetic engineer Fredic Homlin, and what connection does the Biogenetrix Corporation's chilling technology touted as the 'play dough of life' represent? Can one headstrong woman reveal the truth in time, or will something else be sown? Beginnings is the shifting shape of much that lies ahead... And A new physique. An old façade... In light of what she's seen, former ufologist Pat Vogt is reluctant to conceal the nature of Allan Pritchard's seeming nephew. TJ isn't as he appears, and the boy's history could mean a bleak future for mankind. Are Pat and Allan instilling humanity or nurturing a malevolent force? Would the true monster be borne by betrayal? As TJ learns to harness his powers, the stakes mount ever higher. Meanwhile, hidden away in a backcountry cave, another lifeform is growing...exponentially. With the help of a shadowy benefactor known only as 'Aeo', Doctor Homlin's plans have received new breath. Soon to emerge is Val, a hungry incarnate that won't rest until its progenitor's vision becomes reality. Ex-operative James Stepp may hold the key to salvation, but how much responsibility can be entrusted to a mercenary...? Building upon its own powerful predecessor, Book II of O.J. Bradford's FreeForm Series thickens the plot, dials up the tension and doubles-down on a rallying cry for excellence in modern SF. Readers that hope to be whisked away, prepare for a brisk abduction.

"The historian," wrote E. L. Doctorow, "will tell you what happened. The novelist will tell you what it felt like." This book sees Peter Hennessy and Robert Shepard combine both approaches with the art of the interviewer, a craft at once sensitive and probing. Reflections collects transcripts of the best interviews from the BBC Radio 4 series Reflections with Peter Hennessy, a show on which the British political elite have spoken candidly about their careers and the moments that came to define their political lives. Supplementing the interviews are short biographies and profiles of the interviewees, allowing readers a fuller picture of each speaker's background and professional trajectory. This revealing book includes conversations with political heavyweights such as former prime minister John Major; former foreign secretaries Margaret Beckett, David Owen, and Jack Straw; Labour Party leader Neil Kinnock; Liberal Party leader David Steel; and chancellor of exchequer Nigel Lawson. In addition, Reflections presents interviews with leading women, including Shirley Williams and Clare Short, who spent years at the forefront of their parties in Westminster. The latest volume in the popular Haus Curiosities series, Reflections offers valuable insights from some of today's most influential political figures.

A young soldier's memoirs of fighting in WWII: "Fascinating . . . A personal record like this is a valuable resource to anyone interested in the period"(Military Model Scene). After the Citadel and Officer Candidate School, Andrew Z. Adkins Jr., was sent to the 80th Infantry Division, then training in the California-Arizona desert. There, he was assigned as an 81mm mortar section leader in Company H, 2nd Battalion, 317th Infantry Regiment. When the division completed training in December 1943, it was shipped in stages to the United Kingdom and then Normandy, where it landed on August 3, 1944. Lieutenant Adkins and his fellow soldiers took part in light hedgerow fighting that served to shake the division down and familiarize the troops and their officers with combat. The first real test came within weeks, when the 2nd Battalion, 317th Infantry, attacked high ground near Argentan during the drive to seal German forces in the Falaise

Pocket. While scouting for mortar positions in the woods, Adkins met a group of Germans and shot one of them dead with his carbine. This baptism in blood settled the question faced by every novice combatant: He was cool under fire, capable of killing when facing the enemy. He later wrote, "It was a sickening sight, but having been caught up in the heat of battle, I didn't have a reaction other than feeling I had saved my own life." Thereafter, the 2nd Battalion, 317th Infantry, took part in bloody battles across France, sometimes coping with inept leadership and grievous losses, even as it took hills and towns away from the Germans. In the fighting graphically portrayed here, Adkins acted with skill and courage, placing himself at the forefront of the action whenever he could. His extremely aggressive delivery of critical supplies to a cut-off unit in an embattled French town earned him a Bronze Star, the first in his battalion. This is a story of a young soldier at war, a junior officer's coming of age amid pulse-pounding combat. Before his death, Andy Adkins was able to face his memory of war as bravely as he faced war itself. He put it on paper, honest and unflinching. In 1944-45, he did his duty to his men and country—and here, he serves new generations of military and civilian readers.

It's the autumn of 1897, and men are flocking to the wild and woolly Yukon Territory in search of gold. But soldier-for-hire Tom Cannon had a different reason for making the hazardous trek north. The one-time cavalry officer has been hired to find Emmet Lawrence, a greenhorn who had gone to seek his fortune and then disappeared. Time and again, as Cannon searched the icy wastes and snow-capped mountains, he drew a blank. No-one remembered Lawrence or knew where to find him. Then something happened that Cannon hadn't allowed for. Emmet Lawrence came looking for him...

I'll stand by you, I'll stand by you, won't let nobody hurt you I shake my head and think of her and how this journey all started. I'm traveling on the open road because someone I know told me I should, it would be good for me. I sigh, I do that a lot. I suck in the nicotine from the cigarette I hold. How I love the way it travels through my body, my veins and bloodstream and is able to calm me. I should quit but unlike other things I used to do, it's legal, and keeps me sane in this day and moment. Everybody has a story, a past, a present, and future they one day hope to have. Sometimes when I drive I look to the person right of me, and wonder what their story is. Is there happiness in it? Is their pain and heartache that someone caused them? Have they cried in the last hour thinking about it? Sometimes I think of my story. Someone once told me, Nothing you tell me, confess to me, will make me love you any less I have many confessions, I have secrets that creep up on me in my dreams, that want to come to surface and be released, be freed from the demons that shackle them. I am here turning the key to release them to the world, I am here to tell my story make my move.
