Abe Kobo (1924-1993) was one of Japan's greatest postwar writers, widely recognized for his imaginative science fiction and plays of the absurd. However, he also wrote theoretical criticism for which he is lesser known, merging literary, historical, and philosophical perspectives into keen reflections on the nature of creativity, the evolution of the human species, and an impressive range of other subjects.

Principles of Generative Phonology is a basic, thorough introduction to phonological theory and practice. It aims to provide a firm foundation in the theory of distinctive features, phonological rules and rule ordering, which is essential to be able to appreciate recent developments and discussions in phonological theory. Chapter 1 is a review of phonetics; chapter 2 discusses contrast and distribution, with emphasis on rules as the mechanism for describing distributions; chapter 3 introduces distinctive features, natural classes, and redundancy; chapter 4 builds on the concept of rules and shows how these can account for alternations; chapter 5 demonstrates the use of rule ordering; chapter 6 discusses abstractness and underlying representations; chapter 7 discusses post-SPE developments, serving as a prelude to more advanced texts. Each chapter includes exercises to guide the student in the application of the principles introduced in that chapter and to encourage thinking about theoretical issues. The text has been classroom tested.

In this #1 bestselling page-turner from "the queen of beach reads" (New York Magazine), a Nantucket novelist has one final summer to protect her secrets while her loved ones on earth learn to live without their golden girl. On a perfect June day, Vivian Howe, author of thirteen beach novels and mother of three nearly grown children, is killed in a hit-and-run car accident while jogging near her home on Nantucket. She ascends to the Beyond where she's assigned to a Person named Martha, who allows Vivi to watch what happens below for one last summer. Vivi also is granted three "nudges" to change the outcome of events on earth, and with her daughter Willa on her third miscarriage, Carson partying until all hours, and Leo currently "off again" with his high-maintenance girlfriend, she'll have to think carefully where to use them. From the Beyond, Vivi watches "The Chief" Ed Kapenash investigate her death, but her greatest worry is her final book, which contains a secret from her own youth that could be disastrous for her reputation. But when hidden truths come to light, Vivi's family will have to sort out their past and present mistakes—with or without a nudge of help from above—while Vivi finally lets them grow without her. With all of Elin's trademark beach scenes, mouth-watering meals, and picture-perfect homes, plus a heartfelt message—the people we lose never really leave us—Golden Girl is a beach book unlike any other.

Times bestselling author of *Flight Behavior*, *The Lacuna*, and *The Poisonwood Bible* and recipient of numerous literary awards—including the National Humanities Medal, the Dayton Literary Peace Prize, and the Orange Prize—returns with a timely novel that interweaves past and present to explore the human capacity for resiliency and compassion in times of great upheaval. How could two hardworking people do everything right in life, a woman asks, and end up destitute? Willa Knox and her husband followed all the rules as responsible parents and professionals, and have nothing to show for it but debts and an inherited brick house that is falling apart. The magazine where Willa worked has folded; the college where her husband had tenure has closed. Their dubious shelter is also the only option for a disabled father-in-law and an exasperating, free-spirited daughter. When the family's one success story, an Ivy-educated son, is uprooted by tragedy he seems likely to join them, with dark complications of his own. In another time, a troubled husband and public servant asks, How can a man tell the truth, and be reviled for it? A science teacher with a passion for honest investigation, Thatcher Greenwood finds himself under siege: his employer forbids him to speak of the exciting work just published by Charles Darwin. His young bride and social-climbing mother-in-law bristle at the risk of scandal, and dismiss his worries that their elegant house is unsound. In a village ostensibly founded as a benevolent Utopia, Thatcher wants only to honor his duties, but his friendships with a woman scientist and a renegade newspaper editor threaten to draw him into a vendetta with the town's powerful men. *Unsheltered* is the compulsively readable story of two families, in two centuries, who live at the corner of Sixth and Plum in Vineland, New Jersey, navigating what seems to be the end of the world as they know it. With history as their tantalizing canvas, these characters paint a startlingly relevant portrait of life in precarious times when the foundations of the past have failed to prepare us for the future.

The book is about history of Lithuania and Russia in Medieval Ages, about writing chronicles, and meanings of words used at the time. It is an analysis of over 30 volumes of the Full Collection of Russian Chronicles, that dates back to 855 A.D. The chronicles in Medieval Ages were written in Slavic using Cyrillic alphabet by monks of the Russian Orthodox Church and in Old German and Medieval Latin by monks of the Teutonic Order. Full texts from Lithuanian in Old Belorussian tongue and excerpts in translations from Russian and Teutonic are included. The book starts in 13th century Lithuania—the time Lithuania emerged as state. The analysis of chronicles takes its reader through said above records made by Russian Orthodox monks (855 - 1453 A.D.), and to records and documents made by Catholics—Teutons and Poles (1191 - 1434 A.D.), Lithuanian (1345 - 1446), and ends with remarks about errors in dictionaries. The book describes the order in which chronicles were copied and therefore contains solutions to unsolved problems of sequence. The book contains graphs, tables, maps, that clarify explanations, a dictionary with almost 2200 entries and an Indices of Names, Tribes, Geographical Places, in which the Author provided extended information about the people, tribes, and places.

"The Flagellants is the story of the romantic relationship between Ideal and Jimson. After a brief prologue establishing Ideal's childhood connection to a black community called "the Bottom," the novel unfolds as a series of arguments between the couple, representing the historical gender conflicts between black men and women."--eNotes.

Looks at the murder of the controversial Ojibwe chief, Hole-in-the-Day, and his legacy of leadership for the Ojibwe.

A British journalist and his schizophrenic son offer a dual memoir about how they have coped with the son's mental illness and his long, difficult journey toward recovery.

What is the relationship of gender to the micropolitics of school reform? This book explores this timely research question, revealing the everyday struggles that happen between different factions of teachers with different definitions of what school means for students. The focus of this struggle, however, may not be on education, but rather on such underlying issues as gender. Using case studies, the author shows how gender politics can be used by teachers to delay reform.
