Accidental empires | The Spectator

Accidental Empires is the trenchant, vastly readable history of that industry, focusing as much on the astoundingly odd personalities at its core--Steve Jobs, Bill Gates, Mitch Kapor, etc. and the hacker culture they spawned as it does on the remarkable technology they created. Cringely reveals the manias and foibles of these men (they are always men) with deadpan hilarity and cogently ...

Accidental Empires, Chapter 15 — Future Computing There is so much wrong and yet a lot that ' s right in this chapter, which was the last one in the original hardcover edition. I don ' t know whether to be embarrassed by it or proud. How does computing today compare with my predictions from 1992?

Accidental Empires | I, Cringely

Accidental Empires: How the Boys of Silicon Valley Make Their Millions, Battle Foreign Competition and Still Can't Get a Date by Robert X. Cringely. This work looks at the business of computing in the US, as computer science, as a business, and as a collection of extraordinary and eccentric characters. After automobiles, energy production, and illegal drugs, personal computers are one of the ...
