Drawings and photographs, the reader is shown every step of the process, beginning with a fresh cowhide, continuing through cutting strings and braiding, and ending with finished reatas, bosals, hobbles, or reins. Along the way, the author discusses the readily available tools and implements needed, which the beginner can make by following the included directions. The chapters on braiding provide simple techniques for producing many basic patterns, which may then be modified or enlarged to yield endless variations. Users or collectors of braided

Weddings Invitations Loss, grieving, and condolences Table manners While they offer useful information on the practical—from table settings and introductions to thank-you notes and condolences—the Posts make it clear why good etiquette matters. Etiquette is a sensitive awareness of the feelings of others, they remind us. Ultimately, being considerate, respectful, and honest is what's really important in building positive relationships. "Please" and "thank you" do go a long way, and whether it's a handshake, a hug, or a friend request, it's the underlying sincerity and

A bestselling dystopian novel that tackles surveillance, privacy and the frightening intrusions of technology in our lives—a “compulsively readable parable for the 21st century” (Vanity Fair). When Mae Holland is hired to work for the Circle, the world’s most powerful internet company, she feels she’s been given the opportunity of a lifetime. The Circle, run out of a sprawling California campus, links users’ personal emails, social media, banking, and purchasing with their

universal operating system, resulting in one online identity and a new age of civility and transparency. As Mae tours the open-plan office spaces, the towering glass dining facilities, the cozy dorms for those who spend nights at work, she is thrilled with the company's modernity and activity. There are parties that last through the night, there are famous musicians playing on the lawn, there are athletic activities and clubs and brunches, and even an aquarium of rare fish retrieved from the Marianas Trench by the CEO. Mae can't believe her luck, her great fortune to work for the most

Address Book company in the world—even as life beyond the campus grows distant, even as a strange encounter with a colleague leaves her shaken, even as her role at the Circle becomes increasingly public. What begins as the captivating story of one woman's ambition and idealism soon becomes a heart-racing novel of suspense, raising questions about memory, history, privacy, democracy, and the limits of human knowledge.

Address Book powered by pure improbability. Among Arthur's motley shipmates are Ford Prefect, a longtime friend and expert contributor to *The Hitchhiker's Guide to the Galaxy*; Zaphod Beeblebrox, the three-armed, two-headed ex-president of the galaxy; Tricia McMillan, a fellow Earth refugee who's gone native (her name is Trillian now); and Marvin, the moody android. Their destination? The ultimate hot spot for an evening of apocalyptic entertainment and fine dining, where the food speaks for itself (literally). Will they make it? The answer: hard to say.

worship, the nature of Asian spirits differs from that of their counterparts in other areas of the world. The possibility is more instinctually accepted that ghosts remain with us, as part of the world, whether we can see them or not. In Saigon The Daughter of Hui Bi Hua roams the corridors of the Ho Chi Minh City Museum of Art, in Japan the Kappa displays an insatiable appetite for cucumbers, in Indonesia the Kuntilanak is a wicked spirit, feared by all, and in Thailand the Preta is a disgusting, hungry ghost.
