Here is Jim Morrison in all his complexity-singer, philosopher, poet, delinquent-the brilliant, charismatic, and obsessed seeker who rejected authority in any form, the explorer who probed "the bounds of reality to see what would happen..." Seven years in the writing, this definitive biography is the work of two men whose empathy and experience with Jim Morrison uniquely prepared them to recount this modern tragedy: Jerry Hopkins, whose famous Presley biography, Elvis, was inspired by Morrison's suggestion, and Danny Sugerman, confidant of and aide to the Doors. With an afterword by Michael McClure.

The United States, the only country to have dropped the bomb, and Japan, the only one to have suffered its devastation, understandably portray the nuclear threat differently on film. American science fiction movies of the 1950s and 1960s generally proclaim that it is possible to put the nuclear genie back in the bottle. Japanese films of the same period assert that once freed the nuclear genie can never again be imprisoned. This book examines genre films from the two countries released between 1951 and 1967-including Godzilla (1954), The Mysterians (1957), The Incredible Shrinking Man (1957), On the Beach (1959), The Last War (1961) and Dr. Strangelove (1964)-to show the view from both sides of the Pacific.

Danny Etter has been trying to be the husband and father he always wanted to be. His job is stable and he is finally on the right path to redemption. Unfortunately, the world around him is falling apart at the seams as violence and panic leave Danny stuck in the crossfire of a raging pandemic. He is forced to fight in order to get back to his family, but one question stands in the way... Is everyone really getting sick or is everyone just becoming crazy?

The classic postapocalyptic thriller with "all the reality of a vividly realized nightmare" (The Times, London). Triffids are odd, interesting little plants that grow in everyone's garden. Triffids are no more than mere curiosities-until an event occurs that alters human life forever. What seems to be a spectacular meteor shower turns into a bizarre, green inferno that blinds everyone and renders humankind helpless. What follows is even stranger: spores from the inferno cause the triffids to suddenly take on a life of their own. They become large, crawling vegetation, with the ability to uproot and roam about the country, attacking humans and inflicting pain and agony. William Masen somehow managed to escape being blinded in the inferno, and now after leaving the hospital, he is one of the few survivors who can see. And he may be the only one who can save his species from chaos and eventual extinction. . . . With more than a million copies sold, The Day of the Triffids is a landmark of speculative fiction, and "an outstanding and entertaining novel" (Library Journal). "A thoroughly English apocalypse, it rivals H. G. Wells in conveying how the everyday invaded by the alien would feel. No wonder Stephen King admires Wyndham so much." -Ramsey Campbell "One of my all-time favorite novels. It's absolutely convincing, full of little telling details, and that sweet, warm sensation of horror and mystery." -Joe R. Lansdale

Ex-trailer trash. Ex-res. Dishonorably discharged ex-Force Recon Marine and MP. Ex-con. Ex-biker. Ex-FBI informant. Ex-wrestler. It's a lot of x's to have by your name. It can give you a bad attitude, and it is not a good resume for most walks of American life. But it's not a bad career track at all for a fixer in Los Angeles, and if the name of the new job is surviving the end of the world?Put it this way. Staying alive in the post-apocalypse can be a real bitch. Sometimes it takes a real bastard.My name is Benjamin Allen Frame.Last night the Earth died screaming.Today is Day One . . .

This book is an extensive collection of original interviews with 50 noted filmmakers. Conducted over a seven-year period expressly for this project, the interviews cover various aspects of film production, biographical information, and the interviewees' favorite or most influential films. Filmmakers interviewed include highly respected auteurs (Richard Linklater, Wim Wenders), B-movie greats (Roger Corman, Lloyd Kaufman), and well-renowned documentary directors (D.A. Pennebaker, Albert Maysles). Each entry includes a brief biography and filmography, while dozens of personal photographs, promotional materials, and film stills appear throughout the work.

An 'After-the-Bomb' story told by teenage Danny, one of the survivors - one of the unlucky ones. Set in Shipley, an ordinary town in the north of England, this is a powerful portrayal of a world that has broken down. Danny not only has to cope in a world of lawlessness and gang warfare, but he has to protect and look after his little brother, Ben, and a girl called Kim. Is there any hope left for a new world?

Tina Evans, grieving over the death of her little boy in a tragic accident, and her compassionate lover embark on a terrifying odyssey in search of the truth about her son's death and the shocking messages that lead her to believe that the child may not be dead after all.

Bill Cooper, former United States Naval Intelligence Briefing Team member, reveals information that remains hidden from the public eye. This information has been kept in Top Secret government files since the 1940s. His audiences hear the truth unfold as he writes about the assassination of John F. Kennedy, the war on drugs, the Secret Government and UFOs. Bill is a lucid, rational and powerful speaker who intent is to inform and to empower his audience. Standing room only is normal. His presentation and information transcend partisan affiliations as he clearly addresses issues in a way that has a striking impact on listeners of all backgrounds and interests. He has spoken to many groups throughout the United States and has appeared regularly on many radio talk shows and on television. In 1988 Bill decided to "talk" due to events then taking place worldwide, events which he had seen plans for back in the early '70s. Since Bill has been "talking," he has correctly predicted the lowering of the Iron Curtain, the fall of the Berlin Wall and the invasion of Panama. All Bill's predictions were on record well before the events occurred. Bill is not a psychic. His information comes from Top Secret documents that he read while with the Intelligence Briefing Team and from over 17 years of thorough research. "Bill Cooper is the world's leading expert on UFOs." -- Billy Goodman, KVEG, Las Vegas. "The onlt man in America who has all the pieces to the puzzle that has troubled so many for so long." -- Anthony Hilder, Radio Free America "William Cooper may be one of America's greatest heros, and this story may be the biggest story in the history of the world." -- Mills Crenshaw, KTALK, Salt Lake City. "Like it or not, everything is changing. The result will be the most wonderful experience in the history of man or the most horrible enslavement that you can imagine. Be active or abdicate, the future is in your hands." -- William Cooper, October 24, 1989.
