~~VAG option codes~~

It uses the OBD-II on-board diagnostic system which is part of the engine operating parameters. This however, requires to be decoded and that is exactly what the VAG-COM software does for the Audi and Volkswagen engines. It then codes them into 4 character codes which are simple to understand and each one is related to the performance of the vehicle.

~~Audi dealer codes | VolkswagenAudi Forum~~

VW utilizes their own proprietary DTC codes (VAG DTC) and only supports a sub-set of the generic OBDII P-codes - The supported P-Codes are required for emission regulation. Generic code reader's might substitute codes, so if no VAG DTC value is supplied for a specific P-code, this will indicate a generic OBDII code selected by the generic reader.
