First let us define not only the difference between Auto Body Repairs and Paint Work but where one stops and the other begins. Body work ends at the point where you pick up your sander or sandpaper to begin feathering the paint and prep for primer. In other words, you've removed the dents, filled the surface irregularities with bondo or whatever and are just about ready to apply primer but must remove the scratches first and also make the step from the metal to the surface of the old paint a ...
