It is a very overpriced booklet. It has a few decent pieces of advice. It really doesn't have much to do with "chemistry." It's more accurate to say it's a cheap anarchist cook book. Many of the recipes require chemicals that you would not easily be able to make if at all. For "survival" books on bush craft

Plan to give time to organic. Set aside time to read the material, do the homework, and study. You'll also need some downtime to relax. Getting away from it for a while really helps the material "click". Do not expect to just go to class and lab and call it a day. One of the biggest survival tips is to plan your time.
