### Beginner's Guide To Coffee Cupping - CoffeeAndTeaCorner

Coffee cupping, or coffee tasting, is the practice of observing the tastes and aromas of brewed coffee. It is a professional practice but can be done informally by anyone or by professionals known as "Q Graders". A standard coffee cupping procedure involves deeply sniffing the coffee, then slurping the coffee from a spoon so it is aerated and spread across the tongue. The coffee taster attempts to measure aspects of the coffee's taste, specifically the body, sweetness, acidity, flavour, and aftertaste.

### Coffee cupping - Wikipedia

We use the SCA cupping form, and we taste each coffee two to three times during cupping. First, we cup while the coffee is hot. Then we evaluate all attributes on warm. And when cold, we go back to the cups that were not uniform or that have possible defects. But we never return to our notes once we identify the coffees by their code.
