Appealing to the casual comic book reader as well as the hardcore graphic novel fan, this ultimate AtoZ compendium describes everyone's favorite participants in the eternal battle between good and evil. With nearly 200 entries examining more than 1,000 heroes, icons and their place in popular culture, it is the first comprehensive profile of superheroes across all media, following their path from comic book stardom to radio, television, movies, and novels. The best-loved and most historically significant superheroes—mainstream and counterculture, famous and forgotten, best and worst—are presented with numerous full-color illustrations, including dozens of classic comic covers. Each significant era of the superhero is explored—from the Golden Age of the 1930s, 1940s, and 1950s through the Modern Age—providing a unique perspective of the role of the hero over the course of the 20th century and beyond. This latest edition has been revised to reflect updates on existing characters, coverage of new characters, and recent films and media trends in the last several years.

The final collection of the popular daily comic strip from the early 1940s finds the Man of Tomorrow facing an evil and equally powerful Superman look-alike, a mad scientist armed with a futuristic death ray, and an organization of criminals dedicated to killing him.
