Series of four algebra workbooks This set of four problem-solving books follows the traditional one-year algebra course, covering the main algebraic principles. Book A begins the year with exercises in simplifying numerical expressions and moves on to one-variable equations. Book B follows with operations in polynomials, solving polynomial equations, and working with rational expressions. Book C involves proportions, graphing linear equations, plus inequalities and absolute value equations. Book D completes the course with roots and radicals, quadratic equations, and analysis of quadratic equations. Interest Level: 8-12

From two experienced teachers, here are four books of problems that follow the school year. Activities include order of operations, signed number, factoring, quadratic formula, linear and quadratic function problems. Exercises paired by odds and evens, with at least two exercise sets on every concept, plus extra pages for typical trouble spots. Ratio, proportion, working with linear equations, inequalities, and absolute value equations.

From two experienced teachers, here are four books of problems that follow the school year. Activities include order of operations, signed number, factoring, quadratic formula, linear and quadratic function problems. Exercises paired by odds and evens, with at least two exercise sets on every concept, plus extra pages for typical trouble spots. Working with polynomials and rational expressions.
