Earth Fire Earthrise, Book 4 By: Daniel Arenson Narrated by: Jeffrey Kafer Our poor characters each have their own hell to live in this fourth book. Then comes another alien invasion that's even worse than the first! This is a sad, dark book. I found it hard to listen to because it really was a such a constant

downer.

Earth Fire Earthrise Book 4 Outint - Indivisible Somerville

The Heirs of Earth (Children of Earthrise Book 1), page 2 ... The shimmering webs of moths caught fire and curled inward, racing with luminous lines of fire, eerily beautiful wings of angelic death. We were lions, David thought, gazing at the terror, at hell unfolding around him. Now we are lambs.

They came from deep space. They came to destroy us. Fifty years ago, bloodthirsty aliens devastated the Earth. Most of humanity perished. We fell into darkness. But now we rise from the ashes. Now we fight back. Marco Emery was born into the war. After his mother is killed, he joins the Human Defense Force, Earth's ragtag army. Emery must survive basic training, become a soldier, and finally face the aliens in battle. Against the alien onslaught, Earth stands alone. But we will fight. We will rise. We will win.

Earth burns. We call them the scum. They came from deep space. Creatures of claws and endless malice, they ravage the world. As the war flares, as cities crumble, Private Marco Emery and his platoon blast into space. They won one battle on Earth. Their next battle must be fought in the darkness. The scum will not rest until the last human is dead. Marco and his friends must defeat them. They must win. Or Earth will fall.

It's all-out war. Our cities fall. Millions die. The scum, these cruel aliens from deep space, are determined to kill us all. So we must kill them. Humanity musters its greatest fleet. Thousands of starships rally. Millions of soldiers deploy. For Earth to stand a chance, we must invade the aliens' homeworld. We must destroy their planet. Before they destroy ours. Earth's fleet flies through space. We fly toward millions of enemy ships. We fly to almost certain death. This will be the hour humanity falls . . . or the hour of our greatest victory.

After the vicious, insect-like aliens called the Saurons invaded Earth and killed billions, they enslaved the survivors, forcing them to build mysterious temples under brutal conditions. In an effort to control their human slaves, the Saurons install a puppet president to keep them under control. But President Alexander Franklin and Chief of Security Jack Manning aren't about to play along. Rebellion is in the air, and the fight for freedom is spreading far and wide, from the center of activity in Washington to the distant lands of Guatemala. A diverse group of rebels, including an ex-FBI agent, a doctor inside the heart of enemy territory, and the president will have to band together with a host of other insurgents from across war-torn Earth to overcome impossible odds if they're to save what's left of humankind. With non-stop action and a remarkable cast of characters, the epic conclusion to William C. Dietz 's DeathDay is a thrilling tale of adversity, rebellion, strength and humanity in a futuristic world where the survival of the many lies in the hands of the brave few.

They walk among us. They look just like us. They plot our doom. Some call them the scummers. Hybrids. Humans with alien DNA. Years ago, they hatched in alien labs. They came to Earth as sleeper agents. Since then, they've been mingling with our society. They teach our children. They cook our food. They tend to our elders. All the while waiting. Biding their time. Hiding in plain sight. And now

they strike. With devastating force. With terrifying cruelty. They bring Earth to its knees. But we will rise again. We are humans, brave and proud. And we will fight back! The bestselling Earthrise saga continues with a new tale of human courage.

A Journey to the Center of the Earth was a science fiction novel written by Jules Verne in 1864. Jules Verne was considered by many to be a father of science fiction writing and incorporated the latest discoveries of the day into his work. As such, we are not surprised to find allusions to dinosaurs, natural gas, and ancient Scandinavian texts in this book. Equally, we also find the thorough respect that Verne has for the intellectual mind, both as a reckless force and as a tempering power.

NEW YORK TIMES BESTSELLER • The riveting inside story of three heroic astronauts who took on the challenge of mankind's historic first mission to the Moon, from the bestselling author of *Shadow Divers*. “ Robert Kurson tells the tale of Apollo 8 with novelistic detail and immediacy. ” —Andy Weir, #1 New York Times bestselling author of *The Martian* and *Artemis By August 1968*, the American space program was in danger of failing in its two most important objectives: to land a man on the Moon by President Kennedy's end-of-decade deadline, and to triumph over the Soviets in space. With its back against the wall, NASA made an almost unimaginable leap: It would scrap its usual methodical approach and risk everything on a sudden launch, sending the first men in history to the Moon—in just four months. And it would all happen at Christmas. In a year of historic violence and discord—the Tet Offensive, the assassinations of Martin Luther King, Jr., and Robert Kennedy, the riots at the Democratic National Convention in Chicago—the Apollo 8 mission would be the boldest, riskiest test of America's greatness under pressure. In this gripping insider account, Robert Kurson puts the focus on the three astronauts and their families: the commander, Frank Borman, a conflicted man on his final mission; idealistic Jim Lovell, who'd dreamed since boyhood of riding a rocket to the Moon; and Bill Anders, a young nuclear engineer and hotshot fighter pilot making his first space flight. Drawn from hundreds of hours of one-on-one interviews with the astronauts, their loved ones, NASA personnel, and myriad experts, and filled with vivid and unforgettable detail, *Rocket Men* is the definitive account of one of America's finest hours. In this real-life thriller, Kurson reveals the epic dangers involved, and the singular bravery it took, for mankind to leave Earth for the first time—and arrive at a new world. “ *Rocket Men* is a riveting introduction to the [Apollo 8] flight. . . . Kurson details the mission in crisp, suspenseful scenes. . . . [A] gripping book. ” —The New York Times Book Review

It's civil war! For years, Earth's heroes fought united. They faced alien armies in war. They defended Earth as friends. As a fellowship. Now they break apart. Lailani de la Rosa, heroine of the Alien Wars, aligns herself with a new enemy. She rises to lead the scummers, a breed of human-alien hybrids. Earth's remaining heroes, led by President Einav Ben-Ari, must face her in war. Lailani knows all of Earth's secrets. She is smarter and stronger than any alien. She is the greatest threat humanity has ever faced. United, we've stood against many foes. Divided, will we fall?

Outcast from Hell. Banished from Heaven. Lost on Earth. The battle of Armageddon was finally fought... and ended with no clear victor. Upon the mountain, the armies of Hell and Heaven beat each other into a bloody, uneasy standstill, leaving the Earth in ruins. Armageddon should have ended with Heaven winning, ushering in an era of peace. That's what the prophecies said. Instead, the two armies--one of angels, one of demons--hunker down in the scorched planet, lick their wounds, and gear up for a prolonged war with no end in sight. In this chaos of warring armies and ruined landscapes, Laila doesn't want to take sides. Her mother was an angel, her father a demon; she is outcast from both camps. And yet both armies need her, for with her mixed blood, Laila can become the ultimate spy... or ultimate soldier. As the armies of Heaven and Hell pursue her, Laila's only war is within her heart--a struggle between her demonic and heavenly blood.
