Encyclopedia of the Qur'an The Encyclopaedia of the Qur'an (EQ) is an academic encyclopedia with articles on the most important themes and subjects of the Qur'an. The publisher, Brill, describes the encyclopedia as follows:

Encyclopedia of the Qur'an | Project Gutenberg Self ...

The 8-volume Quranic Encyclopedia launched Dated: 03 December 2018 Addressing the inaugural ceremony of the Quranic Encyclopedia written by Shaykh-ul-Islam Dr Muhammad Tahir-ul-Qadri, the distinguished speakers stated that the Holy Quran is the Word of Allah that contains solutions to all the problems facing the humanity.

The 8-volume Quranic Encyclopedia launched - Minhaj-ul-Quran

ENCYCLOPAEDIA OF ISLAM. ENCYCLOPAEDIA OF ISLAM, a reference work of fundamental importance on topics dealing, according to its self-description, with "the geography, ethnography and biography of the Muhammadan peoples.". Published under the auspices of E. J. Brill, it exists in two editions. The first edition was published during the period 1913-1938 and supervised by a distinguished editorial board which eventually included M. Th. Houtsma, T. W. Arnold, Basset, Hartmann, A. J. Wensinck, W.

Assuming no prior knowledge, *The Qur'an: A Philosophical Guide* is an introduction to the Qur'an from a philosophical point of view. Oliver Leaman's guide begins by familiarizing the readers with the core theories and controversies surrounding the text. Covering key theoretical approaches and focusing on its style and language, Leaman introduces the Qur'an as an aesthetic object and as an organization. The book discusses the influence of the Qur'an on culture and covers its numerous interpreters from the modernizers and popularizers to the radicals. He presents a close reading of the Qur'an, carefully and clearly presenting a variety of philosophical interpretation verse-by-verse. Explaining what the philosopher is arguing, relating the argument to a particular verse, and providing the reader with the means to be part of the discussion, this section includes: - Translated extracts from the text - A range of national backgrounds and different cultural and historic contexts spanning the classical and modern period, the Middle East, Europe and North America - Philosophical interpretations ranging from the most Islamophobe to the extreme apologist - A variety of schools of thought and philosophers such as Peripatetic, Illuminationist, and Sufi. Written with clarity and authority and showing the distinct ways a variety of thinkers have sought to understand the text, *The Qur'an: A Philosophical Guide* introduces readers to the value of interpreting the Qur'an philosophically.

The Encyclopaedia of the Qur'an online contains the complete articles of the printed volumes 1 to 5, the indices will be added as they become available.

The growing demand for concise and factual information about the history and culture of Islam has now been met with the "Islamic Desk Reference," This handy one-volume work contains a condensation of the subject-matter of "The Encyclopaedia of Islam," the most prestigious and valuable reference work for Islamic studies published this century. In a brief, orderly and intelligible form the "Islamic Desk Reference" provides thus a unique and valuable quick reference tool for those interested in the religion, the believers and the countries of the Islamic world. All entries in the "Islamic Desk Reference" are given in English. Thus, names of Arabic origin which in the West were corrupted to another spelling, e.g. Ibn Sina to Avicenna, al-Kuhl to alcohol, are found under the latter term. The "Islamic Desk Reference" contains maps, diagrams and genealogical tables for easy reference, and illustrations.

The Third Edition of Brill's Encyclopaedia of Islam is an entirely new work, with new articles reflecting the great diversity of current scholarship. It appears in substantial segments each year, both online and in print. The new scope includes comprehensive coverage of Islam in the twentieth century and of Muslim minorities all over the world.

An introduction to the Qur'an (Koran), a text that has guided the lives of millions.

This expansive four-volume encyclopedia presents a broad introduction to Islam that enables learning about the fundamental role of Islam in world history and promotes greater respect for cultural diversity. • Comprises concise, jargon-free entries written by experts in their fields, providing readers with accurate viewpoints that cut through the bias and controversies

regarding most Islamic concepts • Supplies an authoritative introduction of Islam to Western readers that addresses the subject from historical, geographical, conceptual, and personal perspectives • Provides students with a current bibliography • Features color inserts with 16 pages of compelling images from Islam around the world in each volume

The first edition of the Encyclopaedia won worldwide acclaim. As a western scholar of the Islamic faith, Cyril Glassé straddle both cultures and has a respect for and an understanding of both the current Islamic world and its complex past. This unique single-volume work covers the contemporary Islamic scene, which includes a substantial entry on the Taliban. This new edition also contains an extensively revised chronology which spans the history of Islam, from its origins through developments in the Muslim world today.

Islam is a perfect faith and way of life. It is a complete system in itself, for the life in this world and the next world. For knowing Islam, it is essential to study its philosophy, ideology and principles and for that, one has to approach original sources, viz. Holy Quran and Tradition. However, it is not possible for every one to refer to these sources, which are originally in Arabic. Of course, there are commentaries and explanatory books in Persian, Urdu as well as in English and other western languages. Still, it remains difficult to take benefit of these voluminous secondary sources. Hence, a dire need for a comprehensive and exhaustive work on Islam was felt. This exclusive multi-volume is aimed at filling that room. The International Encyclopaedia of Islam consists of nine volumes and successfully covers all important aspects of Islam, as a religion and faith. These volumes, namely are: 1. Islamic Philosophy, 2. Faith in Islam, 3. Principles of Islam, 4. Islamic Manners, 5. Islam and Social Justice, 6. Judicial System in Islam, 7. Human Rights in Islam, 8. Islam and Education, 9. Science and Islam. These volumes virtually cover the whole Islam in a nutshell, which makes them reader-friendly. This multi-volume is essential for all scholars, researchers, students and general readers, the world over.
