Failure is Not an Option is a phrase associated with Gene Kranz and the Apollo 13 Moon landing mission. Although Kranz is often attributed with having spoken those words during the mission, he did not. The origin of the phrase is from the preparation for the 1995 film Apollo 13 according to FDO Flight Controller Jerry Bostick: "In preparation for the movie, the script writers, Al Reinert and ...

This memoir of a veteran NASA flight director tells riveting stories from the early days of the Mercury program through Apollo 11 (the moon landing) and Apollo 13, for both of which Kranz was flight director. Gene Kranz was present at the creation of America's manned space program and was a key player in it for three decades. As a flight director in NASA's Mission Control, Kranz witnessed firsthand the making of history. He participated in the space program from the early days of the Mercury program to the last Apollo mission, and beyond. He endured the disastrous first years when rockets blew up and the United States seemed to fall further behind the Soviet Union in the space race. He helped to launch Alan Shepard and John Glenn, then assumed the flight director's role in the Gemini program, which he guided to fruition. With his teammates, he accepted the challenge to carry out President John F. Kennedy's commitment to land a man on the Moon before the end of the 1960s. Kranz recounts these thrilling historic events and offers new information about the famous flights. What appeared as nearly flawless missions to the Moon were, in fact, a series of hair-raising near misses. When the space technology failed, as it sometimes did, the controllers' only recourse was to rely on their skills and those of their teammates. He reveals behind-the-scenes details to demonstrate the leadership, discipline, trust, and teamwork that made the space program a success. A fascinating firsthand account by a veteran mission controller of one of America's greatest achievements, Failure is Not an Option reflects on what has happened to the space program and offers his own bold suggestions about what we ought to be doing in space now.

Aligning theory with practice, chapter-by-chapter activities and discussion questions examine the critical role of a strong learning community in implementing effective school reform, with a focus on Blanksteins six guiding principles:Common mission, vision, values, and goals Systems for prevention and intervention Collaborative teaming for teaching and learning Data-driven decision making and continuous improvement Active engagement from family and community Building sustainable leadership capacity With the Facilitators Guide to Failure Is NOT an Option", you can effectively lead others through dialogue, reflection, and application of Blanksteins principles. It is an ideal resource for school principals, district administrators, teacher leaders, and educational policy makers, and perfect for groups of any size-pairs, small workshops, and large seminars.

"Writing this funny requires immense talent." –AV Club H. Jon Benjamin—the lead voice behind Archer and Bob's Burgers—helps us all feel a little better about our own failures by sharing his own in a hilarious memoir-ish chronicle of failure. Most people would consider H. Jon Benjamin a comedy show business success. But he'd like to remind everyone that as great as success can be, failure is also an option. And maybe the best option. In this book, he tells stories from his own life, from his early days ("wherein I'm unable to deliver a sizzling fajita") to his romantic life ("how I failed to quantify a threesome") to family ("wherein a trip to P.F. Chang's fractures a family") to career ("how I failed at launching a kid's show"). As Jon himself says, breaking down one's natural ability to succeed is not an easy task, but also not an insurmountable one. Society as we know it is, sadly, failure averse. But more acceptance of failure, as Jon sees it, will go a long way to making this world a different place . . . a kinder, gentler place, where gardens are overgrown and most people stay home with their pets. A vision of failure, but also a vision of freedom. With stories, examples of artistic and literary failure, and a powerful can't-do attitude, Failure Is an Option is the book the world doesn't need right now but will get regardless.

Is Your Company Drowning?When you want your company to rebound from a downturn; to fly to greater heights; and to achieve success, Failure is Not An Option is the Operating Handbook to get you to your destination. It identifies the flight plan for you and your team to navigate the corporate hazards and keep you aloft.. Do you want to increase your profits'. Do you want to stop overtime as an entitlement'. Are you annoyed by customers who don't pay'. Are you concerned that your travelers might be taking you for a ride'. Are your benefits costs too steep?If you answered "yes" to any of these questions, then Failure Is Not An Option is for you. When you are spending what you don't have because your growth projections are over optimistic and your cost assumptions are too low, and in today's economy, you cannot borrow to spend, you need Failure Is Not An Option to learn how to take a laser-like focus to every single line item in your company's P+L. The result is a successful turnaround.Start box

Ten thousand baby boomers reach retirement age every day. More than half of new retirees say that they were not ready when they got there, leading to what has been called the greatest retirement crisis in history. Failure is Not an Option: Creating Certainty In the Uncertainty of Retirement was written by financial planner and retirement expert David Rosell to combat the immense lack of resources for knowing what to do when retirement actually hits.

Do you dream about starting your own business, but don't know where to begin? Is your business stalled and in need of a new source of inspiration? Are you looking for a no-nonsense, practical guidebook for making your professional aspirations a reality? Then FAILURE IS NOT AN OPTION is the book for you. After his incredible escape from war-torn Bosnia and subsequent arrival in the United States as a refugee, violinist Zeljko Pavlovic went on to start his own business and build a world-class career in music. After he and his wife opened Vivaldi Music Academy in 2013, the school became an overnight sensation, and since then it has grown into one of the largest music schools of its kind. Zeljko's incredible story and his unique business acumen has earned him international attention--and now he is telling that story in his own words for the first time. Having seen first-hand the positive impact of music on individuals and communities, Mr. Pavlovic opened the Vivaldi Music Academy in 2013 to offer innovative and engaging music programs to the greater Houston area. In 2014 the Vivaldi Music Academy was named National Music School of the Year by a peer group of over 250 music school owners whom Mr. Pavlovic now serves as a mentor and business coach. He has served on the board of directors for the Houston Metropolitan Chamber of Commerce, and was recently named as an honoree in Houston Business Journal's "40 under 40 Class of 2015."

Originally published in hardcover in 2009.

DAILY DEVOTIONAL JOURNAL "FAILURE IS NOT AN OPTION" Start each day with an inspiring message of hope and encouragement from the word of God. A thirty day devotion by Kenneth Garner's personal thoughts and meditations that will help you in your daily walk to become victorious at facing your own personal trails in life. Watch your life change as you journal your thoughts and prayers and make note of the Lord's specific word to you every day in your personal journal. Take an expedition with the author of: IT'S TOO LATE TO STOP NOW BY: Kenneth Garner

A Developer's Unconventional Wisdom. "If Edna Ferber had wanted to write a real life story on the history of economic growth in West Texas, her book Giant would have been about Delbert McDougal... " - from the foreword by Coach Bob Knight In this Horatio Alger business story, Delbert McDougal started his own company with a \$10,000 loan, followed by many evenings and weekends renting and maintaining a small apartment complex. Over the next twenty five years, McDougal built a multi-million dollar apartment, property development, construction, and realty corporation. The culmination of McDougal's success can be seen in the transformation of the North Overton neighborhood in Lubbock Texas, described as the largest privately-financed urban renewal project in America. His ability to succeed in the face of man), setbacks is a model for any business person, from the sole proprietor to the corporate president.

In the thirty years I spent in Special Weapons and Tactics (SWAT), I participated in some of the most highly publicized events in law enforcement history, which generated national and even international attention, including the takedown of the DC snipers. I was also involved in a hostage rescue incident by a lone-wolf domestic terrorist who the FBI determined was "the first suicide bomber with hostages in the United States" at the Discovery Headquarters Building in Silver Spring, Maryland, and the capture of a violent group of serial bank robbers featured on John Walsh's America's Most Wanted. These events and the 4,500 raids and barricades I participated in over my career helped to prepare me for the life-threatening medical incidents that transpired beginning in 2010 and continue to today. At the height of my career as a SWAT commander, I was struck down by two diseases that at the time were deemed terminal with no available cure: multiple myeloma cancer and cardiac amyloidosis. Doctors told me I had less than two years to live-at best. I prepared for what would be the greatest fight of my life. A career in SWAT had trained me for this fight, with its quarterly fitness tests, numerous high-risk operations, and the mindset to persist against seemingly insurmountable odds. I overcame many obstacles, including "coding" in 2013 during a stem- cell transplant that required chest compressions and saline to bring me back to life and then a stroke precipitated in 2015 by the chemotherapy I was undergoing to forestall the myeloma and amyloidosis. I applied the same expectations that I had of the SWAT Team to myself, always telling the team, "Never complain, never quit, and the mission comes first. Failure's not an option as it relates to the mission." My mission is simple: survive. Eight years have passed since my initial diagnosis, and I am still alive and in remission, and by all medical accounts, I have defied the odds. This memoir consists of three elements: high-profile SWAT operations; my medical journey; and lessons on fitness, diet, and drug routines that have helped me manage these medical obstacles and improve my quality of life. My hope is that by sharing these incidents in SWAT and the medical odyssey that followed, I can help others manage their illnesses, improve their quality of life, and enjoy (directly or vicariously) the high-speed SWAT experiences and the medical risks that my medical team took for me.
