Ten years ago we said goodbye. I left the world I knew to create a new life for myself. Away from the lies. Away from the pain. It was all going as planned until a friend asked for help with her club. The business was liberating. The company was intoxicating. Two masked men became my euphoria. One was a player deep in the game. A teacher both intimately and figuratively. The other was a quiet director. A man who tempted me with his stares and set me on fire with his dark whispers. His secrecy excited me, bringing me to levels I've never imagined. I thought we were playing a game, but little did I know he knew exactly who I was. I just wish I figured out his true identity before I fell for his best friend. * Falling into the Black is a standalone novel with an HEA.

One cold fall day, high school junior Liz Emerson steers her car into a tree. This haunting and heartbreaking story is told by a surprising and unexpected narrator and unfolds in nonlinear flashbacks even as Liz's friends, foes, and family gather at the hospital and Liz clings to life. This riveting debut will appeal to fans of *Before I Fall*, by Lauren Oliver, and *13 Reasons Why*, by Jay Asher. "On the day

Liz Emerson tries to die, they had reviewed Newton's laws of motion in physics class. Then, after school, she put them into practice by running her Mercedes off the road." Why did Liz Emerson decide that the world would be better off without her? Why did she give up? The nonlinear novel pieces together the short and devastating life of Meridian High's most popular junior girl. Mass, acceleration, momentum, force—Liz didn't understand it in physics, and even as her Mercedes hurtles toward the tree, she doesn't understand it now. How do we impact one another? How do our actions reverberate? What does it mean to be a friend? To love someone? To be a daughter? Or a mother? Is life truly more than cause and effect? Amy Zhang's haunting and universal story will appeal to fans of Lauren Oliver, Gayle Forman, and Jay Asher.

Falling Into the Fire is psychiatrist Christine Montross's thoughtful investigation of the gripping patient encounters that have challenged and deepened her practice. The majority of the patients Montross treats in Falling Into the Fire are seen in the locked inpatient wards of a psychiatric hospital; all are in moments of profound crisis. We meet a young woman who habitually commits self-injury, having ingested light bulbs, a box of nails, and a steak knife, among other objects. Her repeated visits to the hospital incite the frustration of the staff, leading Montross to examine how emotion can interfere with proper care. A recent college graduate, dressed in a tunic and declaring that love emanates from everything around him, is brought to the ER by his concerned girlfriend. Is it ecstasy or psychosis? What legal ability do doctors have to hospitalize—and sometimes medicate—a patient against his will? A new mother is admitted with incessant visions of harming her child. Is she psychotic and a danger or does she suffer from obsessive thoughts? Her course of treatment—and her child's future—depends upon whether she receives the correct diagnosis. Each case study presents its own line of inquiry, leading Montross to

seek relevant psychiatric knowledge from diverse sources. A doctor of uncommon curiosity and compassion, Montross discovers lessons in medieval dancing plagues, in leading forensic and neurological research, and in moments from her own life. Beautifully written, deeply felt, *Falling Into the Fire* brings us inside the doctor's mind, illuminating the grave human costs of mental illness as well as the challenges of diagnosis and treatment. Throughout, Montross confronts the larger question of psychiatry: What is to be done when a patient's experiences cannot be accounted for, or helped, by what contemporary medicine knows about the brain? When all else fails, Montross finds, what remains is the capacity to abide, to sit with the desperate in their darkest moments. At once rigorous and meditative, *Falling Into the Fire* is an intimate portrait of psychiatry, allowing the reader to witness the humanity of the practice and the enduring mysteries of the mind

With this stunning debut novel, New York Times bestselling author Lauren Oliver emerged as one of today's foremost authors of young adult fiction. Like Jay Asher's *Thirteen Reasons Why* and Gayle Forman's *If I Stay, Before I Fall* raises thought-provoking questions about love, death, and how one person's life can affect so many others. For popular high school senior Samantha Kingston, February 12—"Cupid Day"—should be one big party, a day of valentines and roses and the privileges that come with being at the top of the social pyramid. And it is...until she dies in a terrible accident that night. However, she still wakes up the next morning. In fact, Sam lives the last day of her life seven times, until she realizes that by making even the slightest changes, she may hold more power than she ever imagined. *Before I Fall* is now a major motion picture Zoey Deutch, Halston Sage, and Kian Lawley. Named to numerous state reading lists, the novel was also recognized as a Best Book of the Year by Amazon.com, Barnes & Noble, The Daily Beast, NPR, and Publishers Weekly.

A riveting, emotional second-chance romance between an estranged couple who have been separated by years and a set of devastating-and life-threatening-secrets that, once unearthed, will either bring them together or send each of them to an early grave.

Falling for your best friend might be a recipe for disaster, but this small-town baker can't help jumping from her pie pan into the fire. Mila Bailey has always had a special talent for creating unique, show-stopping pies. But until her great-aunt leaves her the entry fee to the Pine Ridge Spring Bake-Off, she's only ever shared them with friends and family. Thrust into the spotlight, Mila is determined to prove to everyone—but mostly herself—that she has what it takes to compete with top-level bakers. There's only one flaw in her plan: The not-so-half-baked feelings she's starting to develop for her best friend, Jared Kirkland. Jared has always believed in Mila's gifts, but lately he's struggling not to fantasize about sampling more than just the spoon from the batter. No matter how much he tries to tell himself that Mila is not for him—his dreams have always reached beyond Pine Ridge—he can't deny this new spark between them. Mila embodies Pine Ridge, and Jared wants to break free. How can either of them move on knowing the loves of their lives have been right under their noses all along?

Mia Hammond hates her job, but after her last career went down in flames, well, a girl needs to keep a roof over her head, right? When she finds out that her beloved Camp Falling Pines needs her help, she wonders if those burned bridges from her sports agent days can be rebuilt. Aaron Stanek needs to turn his family's expansion hockey team around quick, before they lose their sponsors and any hope of recruiting new talent. Except the players have no respect for him, and his father isn't helping Aaron find

his footing. When Mia discovers her ex-boyfriend Aaron has a team desperately in need of positive press, it sounds like the perfect match...or it would be, if she didn't have to work with Aaron, since he's the reason her career tanked in the first place. Aaron blames himself for what happened—but in his heart, Mia is still the one who got away. They agree to keep their partnership strictly professional, but keeping their feelings in check is another thing entirely.

A NATIONAL BESTSELLER * A NEW YORK TIMES BOOK REVIEW EDITORS' CHOICE "An invigorating work, deadly precise in its skewering of people, places and things . . . Stylish, despairing and very funny, *Fake Accounts* . . . adroitly maps the dwindling gap between the individual and the world." —Katie Kitamura, *The New York Times Book Review* A woman in a tailspin discovers that her boyfriend is an anonymous online conspiracy theorist in this “absolutely brilliant take on the bizarre and despicable ways the internet has warped our perception of reality” (*Elle*, One of the Most Anticipated Books of the Year). On the eve of Donald Trump's inauguration, a young woman snoops through her boyfriend's phone and makes a startling discovery: he's an anonymous internet conspiracy theorist, and a popular one at that. Already fluent in internet fakery, irony, and outrage, she's not exactly shocked by the revelation. Actually, she's relieved--he was always a little distant--and she plots to end their floundering relationship while on a trip to the Women's March in DC. But this is only the first in a series of bizarre twists that expose a world whose truths are shaped by online lies. Suddenly left with no reason to stay in New York and increasingly alienated from her friends and colleagues, our unnamed narrator flees to Berlin, embarking on her own cycles of manipulation in the deceptive spaces of her daily life, from dating apps to expat meetups, open-plan offices to bureaucratic waiting rooms. She begins to think she can't trust anyone--shouldn't the feeling be mutual? Narrated with seductive confidence and subversive

wit, Fake Accounts challenges the way current conversations about the self and community, delusions and gaslighting, and fiction and reality play out in the internet age.

"Beneath Sam Kirkland's gruff mountain-man exterior lies a gentle heart and a burning desire for the woman he knows he can't have. He's made promises that anchor him to the past, making romance off-limits. And he accepted that-until Sydney came crashing into his life. Sam can't do a relationship right now. Sydney doesn't have the wherewithal to believe in one. But when you meet the right person, the wrong circumstances don't matter"--
