Family in the Middle East | Taylor & Francis Group

Short Synopsis: Family in the Middle East explores, from a historical comparative perspective, the globalization of dominant myths of 'modern' family and society, and their effects on families in Egypt, Iran, and Tunisia. For Western social scientists from the 1700s through the mid-1900s, the dominant model for understanding societal and family change was the 'developmental paradigm'.

Arranged marriages are not uncommon, especially among the more traditional families (Whitaker) and in this relationship, men are generally considered the "active" partners while their wives are the "passive" partners (Tolino 5). These ideas are prominent throughout society in the Middle East and create. Read More.

Family Values and Structures in the Middle East Essay ...

For most Americans the word family denotes a social unit consisting of husband, wife, and children. In Arab culture, the concept of family is much broader. An Arab's family is his kin group (or clan), which probably includes several households and all male first- cousins on his father's side.

The Middle East Culture, Arab Society, Family Life

Middle East and Africa. The aspects of family honor mentioned above differ throughout varying cultures and countries. Family honor in the Bedouin and other Middle Eastern cultures consists of interdependent forms of ird and sharaf. Ird is the honor of a woman she is born with which involves her chastity and continence whereas sharaf is the honor code for men which depends on ird of women in the family.

Family honor - Wikipedia

Despite the constant refrain that family is the most important social institution in Middle Eastern societies, only recently has it become the focus for rethinking the modern history of the Middle East.
