better.

Now available in this softbound edition. The complete story of the elegant Boano-designed Coupe, timeless Pininfarina-styled Spider, and Abarths hard-charging 124 Spider-based rally car. Follow the evolution of the 124 from drawing board to the end of production. All the background you need to purchase, restore and maintain any of the Spiders built from 1966-1985. Filled with history, production, evolution and motorsport data. Foreword by Dante Giacosa.

The 124 Spider was based on a shortened Fiat 124 floorpan and never officially imported into Britain. It could have been a rival to the MGB and with a production run of 190,000 came close to matching the Abingdon total. In 1974 it was produced exclusively for the American

Read Book Fiat 124 Engine

market. In 1979 it became known as the Spider 2000 with the bigger engine and was available with a turbocharged engine in 1981. Fiat withdrew the car from America in 1982. Pininfarina took over the production and it was renamed the Spidereuropa but it was still a slow seller and finally ceased in 1985. This is a book of contemporary road and comparison tests, specification and technical data, driver's impressions, new model introductions, background. Models covered include: 1438cc, 1608cc, 1756cc, 124 Abarth Rally, 1995cc, Turbo, Azzurra, Spidereuropa.

In production from 1966 to 1985, the Pininfarina-designed 124 Spider was a huge export success for Fiat with over 170,000 examples being sold in the USA alone, whilst the 124 Coupe, styled by Boano, also enjoyed sales success throughout the world between 1967 and 1975.

Read Book Fiat 124 Engine

Both cars used Fiat's willing and technically advanced twin-cam engine in sizes ranging from 1400 to 2000cc. Towards the end of production the Spider even enjoyed supercharged performance in its Volumex form. Not to be forgotten is the 124 Spider's important role in international rallying during the 1970s, when the cars created and homologated by Abarth were very successful and always newsworthy. Over 1000 examples of the legendary Fiat-Abarth 124 Spider were built and today, deservedly, these traditionally black-bonneted/hooded cars enjoy great status amongst serious collectors. Here, from an enthusiast author, is the complete history of these important cars, including motorsport. Also within these covers the enthusiast will find expert advice on which model to choose, restoration, clubs, specialists and what it's like to live with a Fiat 124 Spider or Coupe.
