Where does business come from? That's the question every real estate agent asks but few have a truthful answer

for. In an industry constantly selling the "easy button" and overrun with shiny widgets, agents are pulled in multiple directions at once, each promising that if they "just do

GIs returning after World War II created an entirely new automotive market niche when they bought surplus Jeeps and began exploring the

# Get Free Ford Expedition 4wd

rugged backcountry of the American West. This burgeoning market segment, which eventually became known as sport utility vehicles (SUVs), numbered about 40,000 units per year with offerings from

# Get Free Ford Expedition 4wd

Jeep, Scout,  
Toyota, and Land  
Rover. In 1966,  
Ford entered the  
fray with its  
Bronco, offering  
increased  
refinement, more  
power, and an  
innovative coil-  
spring front  
suspension. The  
Bronco caught on  
quickly and soon

# Get Free Ford Expedition 4wd

established a reputation as a solid backcountry performer. In Baja, the legendary accomplishments of racers such as Parnelli Jones, Rod Hall, and Bill Stroppe further cemented the bobtail's

reputation for toughness. Ford moved upstream with the introduction of the larger Bronco for 1978, witnessing a huge increase in sales for the second-generation trucks. The Twin Traction Beam front end was

# Get Free Ford Expedition 4wd

introduced in the third generation, and further refinements including more aerodynamic styling, greater luxury, and more powerful fuel-injected engines came on board in the generations that followed.

# Get Free Ford Expedition 4wd

Through it all, the Bronco retained its reputation as a tough, versatile, and comfortable rig, both on and off the paved road. With the reintroduction of the Bronco for 2020, Ford is producing a

vehicle for a whole new generation of enthusiasts that looks to bring modern styling and performance to the market while building on the 30-year heritage of the first five generations of the Bronco so
