Narrated from the perspective of ten-year-old Rainey Dougherty, tells the story of the summer of 1953 when mother was sent to the sanatorium and Aunt Merle, along with her children Joan and Wayne, came to the Dougherty's Upstate New York home to help father care for his five children.

Describes the author's efforts to follow in the footsteps of British explorer Ivan Champion, the first individual to successfully cross Papua New Guinea in 1927, detailing her adventures, experiences, and self-discoveries along the way.

Kira Salak undertook an epic, solo jungle trek across the remote Pacific island nation of Papua New Guinea—often called the last frontier of adventure travel. Traveling by dugout canoe and on foot, confronting the dangers and wonders of a largely untouched world, she became the first woman to traverse PNG. Salak stayed in villages where cannibalism was still practiced behind the backs of the missionaries, meeting mysterious witch doctors and befriending the leader of the Free Papua guerrilla movement (OPM), who fought against the Indonesian occupation of Western New Guinea. The New York Times Book Review selected Four Corners as a Notable Travel Book of the Year, writing, "Kira Salak is tough, a real-life Lara Croft." Book Magazine called her "the gutsiest—and some say craziest—woman adventurer of our day." Edward Marriott proclaimed Four Corners to be "a travel book that transcends the genre. It is, like all the best travel narratives, a resonant interior journey, and offers wisdom for our times." Now published as an eBook for the first time by Restless Books, Four Corners: A Journey into the Heart of Papua New Guinea is a must-read for world travelers and adventurous spirits. Praise for Four Corners "A luminously written, thoughtful account of a solo crossing of Papua New Guinea....Salak 's story offers vivid and informative commentary as it describes a region whose interior was only first explored in the 1930s....Exemplary travel-writing. " —Kirkus Reviews " Kira Salak is tough, a real life Lara Croft...unlike many travel writers, she is hip to her inner workings. " —The New York Times " The book is tense and packed with action, but it ' s also deeply thoughtful: Why does she do the things she does? When will she stop pushing herself? Determined as she is to be tough, tougher than any man she encounters, Salak is also forced to confront the role gender plays in her travels. " —Outside Magazine " A gripping adventure story....A consistently interesting and well-written memoir. " —Publishers Weekly Kira Salak won the PEN Award for journalism for her reporting on the war in Congo, and she has appeared five times in Best American Travel Writing. A National Geographic Emerging Explorer and contributing editor for National Geographic Adventure magazine, she was the first woman to traverse Papua New Guinea and the first person to kayak solo 600 miles to Timbuktu. She is the author of three books—the critically acclaimed work of fiction, The White Mary, and two works of nonfiction: Four Corners: A Journey into the Heart of Papua New Guinea (a New York Times Notable Travel Book) and The Cruellest Journey: Six Hundred Miles to Timbuktu. She has a Ph.D. in English, her fiction appearing in Best New American Voices and other anthologies. Her nonfiction has been published in National Geographic, National Geographic Adventure, Washington Post, New York Times Magazine, Travel & Leisure, The Week, Best Women's Travel Writing, The Guardian, and elsewhere. Salak has appeared on TV programs like CBS Evening News, ABC's Good Morning America, and CBC's The Hour. She lives with her husband and daughter in Germany.

Four Corners is a bare-knuckled debut novel about life, love, and violence along four states of the American southwest — both a savage, mean-streets thriller and a heartbreaking story of unfortunate love. For the better part of thirty-seven years, Frank Bruce has hobbled through life, dragging his hunger for amphetamines, alcohol, and crime behind him like a heap of tarnished weight. Now, emboldened by the love of his child-fiancé Maddie Nicole, Frank goes on the run through the drug underworld of the Southwest trying to save a young boy from his meth-riddled father and casino mogul grandfather. Caught in a cat-and-mouse chase but still determined to protect what he loves, Frank seeks help from his onetime mentor, legendary drug kingpin Jon Santer. But in doing so, Frank triggers a vile reckoning with his terrible, violent past.

Four Corners is an integrated four-skills English course for adults and young adults. Four Corners Workbook, Level 4 has eight-page units that can be used in class or for homework. Each unit provides students with additional vocabulary, grammar, functional language, and reading practice.

In 1875, a team of cartographers, geologists, and scientists under the direction of Ferdinand V. Hayden entered the Four Corners area for what they thought would be a calm summer 's work completing a previous survey. Their accomplishments would go down in history as one of the great American surveying expeditions of the nineteenth century. By skillfully weaving the surveyors ' diary entries, field notes, and correspondence with newspaper accounts, historians Robert S. McPherson and Susan Rhoades Neel bring the Hayden Survey to life. Mapping the Four Corners provides an entertaining, engaging narrative of the team 's experiences, contextualized with a thoughtful introduction and conclusion. Accompanied by the great photographer William Henry Jackson, Hayden 's team quickly found their trip to be more challenging than expected. The travelers describe wrangling half-wild pack mules, trying to sleep in rain-soaked blankets, and making tea from muddy, alkaline water. Along the way, they encountered diverse peoples, evidence of prehistoric civilizations, and spectacular scenery—Hispanic villages in Colorado and New Mexico; Mesa Verde, Hovenweep, and other Anasazi sites; and the Hopi mesas. Not everyone they met was glad to see them: in southeastern Utah surveyors fought and escaped a band of Utes and Paiutes who recognized that the survey meant dispossession from their homeland. Hayden saw his expedition as a scientific endeavor focused on geology, geographic description, cartographic accuracy, and even ethnography, but the search for economic potential was a significant underlying motive. As this book shows, these pragmatic scientists were on the lookout for gold beneath every rock, grazing lands in every valley, and economic opportunity around each bend in the trail. The Hayden Survey ultimately shaped the American imagination in contradictory ways, solidifying the idea of “ progress ” —and government funding of its pursuit—while also revealing, via Jackson 's photographs, a landscape with a beauty hitherto unknown and unimagined.

A collection of striking photographic images of the American Southwest are accompanied by Don Imus's trademark trenchant observations and witty commentary on modern life. 50,000 first printing.
