"More future fiction than science fiction, this galactic love story of Chrome, the brilliant-eyed cadet from garbage planet Earth, and Vortex, the Warrior King from a far prouder planet, is full of political intrigue, dizzying adventure, romance and an unusual blend of magic and mysticism"--dust jacket.

In a future world where happiness is guaranteed - but at the price of human life - one all-powerful Corporation now runs America. It guarantees health, happiness, and prosperity, but at the destruction of individuality and privacy. And with the sacrifice of vaccos - Corporate cadavers - laboratory-produced human analogues, used for vitally needed organ, tissue, and body part transplants. Chris Turner, once a teenage thief, hustler, and renegade, now the adopted son of a wealthy Corporate leader, will find a vacco, Hart 256043, desperately running for his life. Together, Hart and Chris will bond, and do everything possible for their mutual survival.--From publisher's information.

Horsefeathers complains that George Crum's fried potatoes are too thick, George makes them thinner. When Filbert insists they are still too thick, George makes them even thinner. But when the plate is sent back a third time, George mischievously decides to use his sharpest knife to cut paper-thin potato slices, which he fries until they are crackling and douses liberally with salt. At last, Filbert is satisfied, proclaiming, "Perfection!" Which they are. Because, quite by accident, George has invented potato chips! Based on true events, this delicious tale will have kids clamoring for more, more, more!

Today we have greater wealth, health, opportunity, and choice than at any time in history. Yet a chorus of intellectuals and politicians laments our current condition -- as slaves to technology, coarsened by popular culture, and insecure in the face of economic change. The future, they tell us, is dangerously out of control, and unless we precisely govern the forces of change, we risk disaster. In *The Future and Its Enemies*, Virginia Postrel explodes the myths behind these claims. Using examples that range from medicine to fashion, she explores how progress truly occurs and demonstrates that human betterment depends not on conformity to one central vision but on creativity and decentralized, open-ended trial and error. She argues that these two opposing world-views -- "stasis" vs. "dynamism" -- are replacing "left" and "right" to define our cultural and political debate as we enter the next century. In this bold exploration of how civilizations learn, Postrel heralds a fundamental shift in the way we view politics, culture, technology, and society as we face an unknown -- and invigorating -- future.

A narrative like no other: a cultural history that explores how cars have both propelled and reflected the American experience— from the Model T to the Prius. From the assembly lines of Henry Ford to the open roads of Route 66, from the lore of Jack Kerouac to the sex appeal of the Hot Rod, America ' s history is a vehicular history—an idea brought brilliantly to life in this major work by Pulitzer Prize–winning journalist Paul Ingrassia. Ingrassia offers a wondrous epic in fifteen automobiles, including the Corvette, the Beetle, and the Chevy Corvair, as well as the personalities and tales behind them: Robert McNamara ' s unlikely role in Lee Iacocca ' s Mustang, John Z. DeLorean ' s Pontiac GTO , Henry Ford ' s Model T, as well as Honda ' s Accord, the BMW 3 Series, and the Jeep, among others. Through these cars and these characters, Ingrassia shows how the car has expressed the particularly American tension between the lure of freedom and the obligations of utility. He also takes us through the rise of American manufacturing, the suburbanization of the country, the birth of the hippie and the yuppie, the emancipation of women, and many more fateful episodes and eras, including the car ' s unintended consequences: trial lawyers, energy crises, and urban sprawl. Narrative history of the highest caliber, *Engines of Change* is an entirely edifying new way to look at the American story.

An analysis of the invasion of our personal lives by logo-promoting, powerful corporations combines muckraking journalism with contemporary memoir to discuss current consumer culture

China has always felt vulnerable, and, in the 1990s, it began forming agreements with other nations, eventually culminating in the Belt and Road Initiative. The authors analyze China's engagement with the Developing World.

"I thought life was pretty much over." Paul Herman "I was afraid people wouldn't see me for who I still was." Cathy Green "I didn't need this to be a better person." Susan Douglas "I wasn't sure I wanted to live 'this way.'" Kevin Wolitzky The above four people and 49 more just like them went on to find high levels of success and lead satisfying lives. Together they tell 53 stories of moving forward to meet all the challenges, fears, obstacles, and problems common to the life-altering circumstances after spinal cord injury, and doing it without benefit of wealth, large settlements or solid health coverage. Ranging in age from 21 to 67, disabled from three to 48 years they share 931 years of disability experience. Roll Models is a valuable new resource for recently injured people and their families, and for nurses, therapists, psychologists and all other professionals who treat, work with and care for people with spinal cord injury. Straight from the horse's mouth, survivors explore their experiences with disability and answer many questions those in rehab are asking: Early Thoughts What were your thoughts immediately following injury? What were your initial thoughts and reactions regarding SCI and the future? The First Years What were your biggest fears during that first year or so? How did you get past those early fears? Changes, Obstacles and Solutions How much different are you now, compared to how you were before injury? What's been the biggest obstacle? How did you address these obstacles? Finding What Works What have been the most difficult things for you to deal with since injury? What's the worst thing about

having an SCI and using a chair? What's been your biggest loss due to injury? Is SCI the worst thing that ever happened to you? Tell me something about your problem solving skills. How do you deal with stress? What do you do to relieve stress? Salvations, Turning Points and More Was there any one thing that was your "salvation" or key to your success? Was there a turning point for you when you began to feel things were going to get better? What personal factors, habits and beliefs have helped you the most? SCI and Meaning Do you find any meaning, purpose or lessons in your disability? Did any positive opportunities come your way because of your injury? What's your greatest accomplishment? What are you most proud of? "A wonderful roadmap with many alternate routes to living and thriving with SCI." Minna Hong, SCI survivor and Peer Support Coordinator/Vocational Liaison, Shepherd Center "Avoids the trap of providing a 'one size fits all mentality' and provides solutions as varied as the individuals used as examples. Accentuates the positives while not sugar coating the difficulties. Essential reading." Jeff Cressy SCI survivor and Director of Consumer and Community Affairs, SCI Project, Rancho Los Amigos "A great resource for people as they venture out into the world, or search for meaning and a deeper, richer life. Filled with examples of real people and their real experiences." Terry Chase, ND, RN; SCI survivor; Patient & Family Education Program Coordinator, Craig Hospital "A wonderful tool for the newly spinal cord injured individual, as well as the therapists and counselors working with them. This certainly hits the mark in capturing important survival strategies." Jack Dahlberg, SCI survivor, Past President of the National Spinal Cord Injury Association "Artfully crafted and organized, Roll Models sensitively portrays life following spinal cord injury.
