An examination of families and schools in South Africa, revealing how the marketisation of schooling works to uphold the privilege of whiteness.

Brutally dragged 780 metres beneath a taxi, a young woman's inspiring story of survival, courage, and the will to live. 13 September

2011. The story would shock thousands and be remembered by many for years to come. It would be plastered all over the papers and continue to attract interest well after the shock factor of what happened had passed. Reports and articles would be written, and “ facts ” , as given to reporters by some of those involved and

willing to be interviewed, would be recounted and repeated in all forms of public media over the months and even years that followed. And although these versions would generate widespread outrage, none was entirely accurate. The stories were about me. I was there. I am Kim McCusker,
“ the girl who was

and affordable education. By following families and schools in Durban for nearly a decade, Mark Hunter sheds new light on South Africa's political transition and the global phenomenon of education marketisation. He rejects simple descriptions of the country's move from 'race to class apartheid' and reveals how 'white'

phenotypic traits like skin colour retain value in the schooling system even as the multiracial middle class embraces prestigious linguistic and embodied practices the book calls 'white tone'. By illuminating the actions and choices of both white and black parents, Hunter provides a unique view on race, class and gender in a

topical themes, the first of which concerns the link between society, power and the environment, and how competing interests, whether these be corporate, legal, socio-ecological or environmentalist, relate to each. Another theme includes contributions on development, democracy and service delivery. Workplace

groups. The collection of work presented in this book reflects a critical stance towards reification of roles, highlights contradictions between principles and practices in society, and underscores the complexity of societal issues on a broad range of contemporary themes. As such, the chapters are notable for their

empirical richness and methodological pluralism, which are of interest to an interdisciplinary audience, whether scholars, professionals or practitioners.

Information and Communication Technology (ICT) is becoming indispensable in the spheres of

Access Free

Grade 11

business, government, education and entertainment. It makes Internet marketing, e-government, e-learning and online chat services possible. And its commercial aspect, e-commerce, is part of this trend. Today, no business training is complete without the inclusion of at least the basics of e-commerce.

But although e-commerce has opened up new opportunities, it also presents threats and risks. The success of e-commerce hinges on security and trust. Every business manager should therefore have a fundamental awareness of the meaning of e-commerce and ICT security and risk management. This
