~~mods.dk -> Instruction, users and service manuals for Grundig~~

A Grundig Satellit 650 works perfectly from most standpoints; all bands work fine in terms of manual tuning and the resultant audio quality. However on AM, when either a frequency is inputted using the keypad, or, the large tuning knob is used - in other words in motorised mode - the motor drive doesn't work properly.

The very last of the great, true German Grundig Satellit series. One should not mix these later on brand-copies, with the genuine Grundig high quality receivers of the 60's to 80's. Still, to the GS 600 versus GS 650, there was something I cannot explain, even having owned them both models for years.
