Written specifically for undergraduates and graduate students, this text is designed to increase the extent to which issues related to human trafficking are understood and addressed. Human Trafficking makes the expertise of those with experience in the anti-slavery movement of this century available to others.

In Human Trafficking: Interdisciplinary Perspectives experts from a wide range of disciplinary and professional backgrounds provide a uniquely comprehensive understanding of human trafficking in the twenty-first century. Chapter authors consider historical, sociocultural, legal, public health, human rights and psychological aspects of this issue. New chapters address important topics such as racism, child soldiers, organ trafficking and the role of technology and the banking industry in trafficking. The third edition also explores the ways in which institutionalized oppression of people of color, Native Americans and those in the LGBTQ+ community can underlie vulnerability of these populations to being trafficked. Human Trafficking is essential reading for professionals in law enforcement, human services, and health care, and for concerned citizens interested in human rights and making a difference in their communities. This book is also intended for use in undergraduate and graduate interdisciplinary courses in human trafficking.

This book offers an interdisciplinary and accessible approach to issues of global migration in the twenty-first century in 13 essays plus an appendix written by scholars and practitioners in the field.

This practical, interdisciplinary text draws from empirically grounded scholarship, survivor-centered practices, and an ecological perspective to help readers develop an understanding of the meaning and scope of human trafficking. Throughout the book, the authors address the specific vulnerabilities of human trafficking victims, their medical-psycho-social needs, and issues related to direct service delivery. They also address the identification of human trafficking crimes, traffickers, and the impact of this crime on the global economy. Using detailed case studies to illuminate real situations, the book covers national and international anti-trafficking policies, prevention and intervention strategies, promising practices to combat human trafficking, responses of law enforcement and service providers, organizational challenges, and the cost of trafficking to human wellbeing.

Human trafficking has moved from relative obscurity to a major area of research, policy and teaching over the past ten years. Research has sprung from criminology, public policy, women ' s and gender studies, sociology, anthropology, and law, but has been somewhat hindered by the failure of scholars to engage beyond their own disciplines and favoured methodologies. Recent research has begun to improve efforts to understand the causes of the problem, the experiences of victims, policy efforts, and their consequences in specific cultural and historical contexts. Global Human Trafficking: Critical issues and contexts foregrounds recent empirical work on human trafficking from an interdisciplinary, critical perspective. The collection includes classroom-friendly features, such as introductory chapters that provide essential background for understanding the trafficking literature, textboxes explaining key concepts, discussion questions for each chapter, and lists of additional resources, including films, websites, and additional readings for each chapter. The authors include both eminent and emerging scholars from around the world, drawn from law, anthropology, criminology, sociology, cultural studies, and political science and the book will be useful for undergraduate and graduate courses in these areas, as well as for scholars interested in trafficking.

Human trafficking may be one of the least understood crimes in the United States. Often referred to as "slavery without chains," it is a widespread and highly profitable crime, largely hidden from public view out of ignorance or denial of its existence in the United States. After drug dealing, human trafficking is tied with the illegal arms trade as the second largest criminal industry in the world, and it is the fastest-growing. There are thousands of law enforcement officers within the United States that are confronted with the epidemic of human trafficking. While human trafficking is not a new crime, it has recently taken center stage as a criminal enterprise that is extremely profitable with less risk to the traffickers. As criminals invent new ways to profit and exploit people, law enforcement has to learn new techniques and tactics to adapt to changing trends. Topics include: RECOGNIZING HUMAN TRAFFICKING AND IDENTIFYING VICTIMS INVESTIGATING HUMAN TRAFFICKING CRIME SCENES, PHYSICAL EVIDENCE, AND EXAMINATIONS IN HUMAN TRAFFICKING THE VICTIM'S PSYCHOLOGICAL REACTIONS AND IMMEDIATE NEEDS COMMUNICATING WITH VICTIMS OF HUMAN TRAFFICKING INTERVIEW CHECKLIST LEGAL TOOLS FOR PROSECUTION INTERNET INVESTIGATIONS TYPES OF RECOVERY/ENFORCEMENT OPERATIONS

Forensic DNA Applications: An Interdisciplinary Perspective was developed as an outgrowth of a conference held by the International Society of Applied Biological Sciences. The topic was human genome based applications in forensic science, anthropology, and individualized medicine. Assembling the contributions of contributors from numerous regions a

The practice of one human being exploiting another in slavery-like conditions is not new. Today, it is called human trafficking. Social, political, and economic forces over the past 60 years have changed how and why this human rights abuse occurs. In order to solve this or any social problem, it is important that it is fully understood. With a range of contributing subject experts from different disciplines and professions, this text comprehensively explains human trafficking as it exists and is being addressed in the twenty-first century. Human Trafficking is essential reading for professionals working in many fields, including law enforcement, human services, and health care, and for concerned citizens interested in human rights and how to make a difference in their communities. This book is also intended for use in undergraduate and graduate interdisciplinary courses in human trafficking. A bank of test items applicable to each article in the book is available to instructors interested in selecting this edition for course use. Simply send an e.mail to the publisher at [saleshss@taylorandfrancis.com](mailto:saleshss@taylorandfrancis.com)

In this riveting book, authors and authorities on modern slavery Kevin Bales and Ron Soodalter expose the disturbing phenomenon of human trafficking and slavery that exists now in the United States. In *The Slave Next Door* we find that these horrific human rights violations are all around us; people sold into slavery are often hidden in plain sight: the dishwasher in the kitchen of the neighborhood restaurant, the kids on the corner selling cheap trinkets, the man sweeping the floor of the local department store. In these pages we also meet some unexpected modern-day slave owners, such as a 27-year old middle-class Texas housewife who is currently serving a life sentence for offences including slavery. Weaving together a wealth of voices—from slaves, slaveholders, and traffickers as well as from experts, counselors, law enforcement officers, rescue and support groups, and community leaders—this book is also a call to action, telling what we, as private citizens and political activists, can do to raise community awareness, hold politicians accountable, and finally bring an end to this horrific and traumatic crime.
