~~This year is the sesquicentennial of the first subway line in London, the grandfather of all subway systems. There have been countless technological changes since then, and the system has become huge with connections all over the city and outside of it. The changes in technology are a mere side issue within _London Underground by Design_ (Penguin Books) by subway enthusiast Mark Ovenden.~~

~~Everything changed when Frank Pick, Commercial Manager of the Underground and a hero in these pages for his emphasis on efficient design, commissioned Edward Johnston in 1913 to come up with a typeface to be used throughout the system. Johnston's creation, now known as Johnston Sans, has been a foundation of Underground design ever since.~~

~~Amazon.com: Customer reviews: London Underground By Design~~

~~And now new book London Underground by Design is distilling 150 years of Tube design by telling the stories of people like Frank Pick, commercial manager for the Underground from 1912, who worked with a 'design fit for purpose' philosophy in mind and commissioned typographer Edward Johnston to create a new letterform.~~

~~London Underground By Design | Design Week~~

~~The Underground - the world's first underground electric railway system - opened in 1890. Frank Pick (1878-1941) provided guidance and inspiration during the Underground's early history which put the London Transport system ahead of many in new marketing and graphic design. Under Frank Pick's direction as Chief Executive of London Transport, a new logo and typeface was commissioned.~~

~~A Graphic Design History of the London Underground~~

~~London Underground by Design is the first meticulous study of every aspect of that feat, a comprehensive history of one of the world's most celebrated design achievements, and of the visionaries who brought it to life.~~

~~Beck's first map, designed in 1931, should have been an instant win, but London Underground were unconvinced. They saw what was taken away from the map, rather than focusing on what Beck retained. After two years of struggle, Beck finally convinced London Underground to print just 1,000 of his maps and let people make up their own minds.~~
