Data Structures | DS Tutorial - javatpoint  
CSE 30331/CSE 34331 is about the data structures and algorithms that are the core of computer science and the building blocks for nearly every computer program you will write. In this course, you will explore the fundamental techniques in the design and analysis of non-numerical algorithms and their data structures.

## Data Structures

A data structure is a specialized format for organizing, processing, retrieving and storing data. While there are several basic and advanced structure types, any data structure is designed to arrange data to suit a specific
