A stark, unbridled vision of planet Earth on the brink of collapse, and the inspiration behind the classic sci-fi film, *Soylent Green*. At the close of the twentieth century, a planet overwhelmed by rampant overpopulation teeters on the edge of self-destruction. In New York City alone, 35 million people are squeezed into its packed boroughs, scrambling like rats for the world's dwindling resources. The only food available is a product called Soylent. And while the government tries to maintain order, the rich get richer and the poor stay underfoot. Finding a killer in this broken world is one hell of a job. But that's exactly what detective Andy Rusch has been assigned to do. If he can stay alive long enough, he might just solve the biggest case he's ever been on—unless humanity finally fulfills its promise and destroys itself first.

Sometime in a dark future of urban jungles, vast overpopulation, riots, food shortages, and senseless violence, Andy Rusch, a cynical New York City detective, embarks on a desperate hunt for the truth about a killer whom everyone else has forgotten, in a new edition of a classic novel, first published in 1966. Reprint. 20,000 first printing.

A gangster is murdered during a blistering Manhattan heat wave. City cop Andy Rusch is under pressure solve the crime and captivated by the victim's beautiful girlfriend. But it is difficult to catch a killer, let alone get the girl, in crazy streets

crammed full of people. The planet's population has exploded. The 35 million inhabitants of New York City run their TVs off pedal power, riot for water, loot and trample for lentil 'steaks' and are controlled by sinister barbed wire dropped from the sky. Written in 1966 and set in 1999, *Make Room! Make Room!* is a witty and unnerving story about stretching the earth's resources, and the human spirit, to breaking point.

Using fathers' first-hand accounts from letters, journals, and personal interviews along with hospital records and medical literature, Judith Walzer Leavitt offers a new perspective on the changing role of expectant fathers from the 1940s to the 1980s. She shows how, as men moved first from the hospital waiting room to the labor room in the 1960s, and then on to the delivery and birthing rooms in the 1970s and 1980s, they became progressively more involved in the birth experience and their influence over events expanded. With careful attention to power and privilege, Leavitt charts not only the increasing involvement of fathers, but also medical inequalities, the impact of race and class, and the evolution of hospital policies. Illustrated with more than seventy images from TV, films, and magazines, this book provides important new insights into childbirth in modern America, even as it reminds readers of their own experiences.

*Please Make Room for Me* By: William R. Brown Phineas Bentley, a misfit, bullied teenager, is desperate to find love. As he struggles with his sexuality, he wonders if

## Access Free Make Room Make Room By Harry Harrison Goodreads

anyone will love him if they knew his most deeply hidden secret. So, he hides part of himself from the world, and hopes that no one will see. But when true love finds him in the most unexpected way, can he learn to live and embrace life—even in the face of tragedy?

You can trust Melissa Michaels, creator of the highly respected and popular blog The Inspired Room and a reformed stuff-keeper. In these pages you will find a friend who empathizes with you and offers insightful ideas for altering your habits while efficiently decluttering and organizing your home so that you can really enjoy living there.

Between 1948 and 1955, nearly two-thirds of all American families bought a television set—and a revolution in social life and popular culture was launched. In this fascinating book, Lynn Spigel chronicles the enormous impact of television in the formative years of the new medium: how, over the course of a single decade, television became an intimate part of everyday life. What did Americans expect from it? What effects did the new daily ritual of watching television have on children? Was television welcomed as an unprecedented "window on the world," or as a "one-eyed monster" that would disrupt households and corrupt children? Drawing on an ambitious array of unconventional sources, from sitcom scripts to articles and advertisements in women's magazines, Spigel offers the fullest available account of the popular response to television in the postwar years. She chronicles the role of

## Access Free Make Room Make Room By Harry Harrison Goodreads

television as a focus for evolving debates on issues ranging from the ideal of the perfect family and changes in women's role within the household to new uses of domestic space. The arrival of television did more than turn the living room into a private theater: it offered a national stage on which to play out and resolve conflicts about the way Americans should live. Spigel chronicles this lively and contentious debate as it took place in the popular media. Of particular interest is her treatment of the way in which the phenomenon of television itself was constantly deliberated—from how programs should be watched to where the set was placed to whether Mom, Dad, or kids should control the dial. *Make Room for TV* combines a powerful analysis of the growth of electronic culture with a nuanced social history of family life in postwar America, offering a provocative glimpse of the way television became the mirror of so many of America's hopes and fears and dreams.

For most of church history, hospitality was central to Christian identity. Yet our generation knows little about this rich, life-giving practice.

*Make Room: Finding Where Faith Fits* by Jonathan McReynolds. *Make Room* is an honest, practical approach to creating space for God in every aspect of our lives in order to experience the fullness that can come only through an authentic relationship with God.

This state-of-the-art clinician's guide describes Perinatal Child – Parent Psychotherapy

## Access Free Make Room Make Room By Harry Harrison Goodreads

(P-CPP), a treatment for pregnant women and their partners whose readiness to nurture a baby is compromised by traumatic stress and adverse life experiences. An application to pregnancy of the widely disseminated, evidence-based Child – Parent Psychotherapy, P-CPP spans the prenatal period through the first 6 months of life. Extended cases illustrate ways to help mothers and fathers understand how trauma has affected them, navigate the physical and emotional challenges of becoming parents, build essential caregiving competencies, and ensure the safety of their babies and themselves. Cultural considerations in working with diverse families are addressed through specific intervention examples.
