Managing Organizational Behavior by Baldwin/Bommer/Rubin distinguishes itself from other OB texts by taking a carefully-balanced approach to OB. It covers all traditional OB topics but in a decision-oriented, not just descriptive, way. It embraces the best OB models and evidence but engages students in how to use those models to improve their skill-sets and more successfully navigate organizational life. It is expressly designed to reconcile student demands for relevance and application with instructor interests in rigor, evidence and appropriate coverage of the discipline. Its student-centric materials provide students with relevant cutting-edge research and applications through extensive case studies, Manage What? situations, and practical Tool Kits that bring OB and career success to real life.

Organisational Behavior by Fred Luthans was one of the first mainstream organisational behavior texts on the market and continues the tradition of being the most current and up-to-date researched text today. Well-known author Fred Luthans is the 5th most prolific Publisher in Academy of Management Journals and a senior research scientist with the Gallup Organization, who continues to do research in the organisational behavior area. The Twelfth Edition of *Organisational Behavior* is ideal for instructors who take a research-based and conceptual approach to their OB course.

The authors' goal in writing *Organizational Behavior and Management 10e* is to improve students' ability to understand, interpret, and predict the behavior of people working in organizations. The book combines text, self-learning exercises, group-participation exercises, and cases in an integrated way designed to enhance learning and retention of organizational behavior concepts and skills. A solid research base and an appendix on research techniques make this book suitable for a graduate studies course.

Good, No Highlights, No Markup, all pages are intact, Slight Shelfwear, may have the corners slightly dented, may have slight color changes/slightly damaged spine.
