Matchmakers: The New Economics of Multisided Platforms. Many of the most dynamic companies, from Alibaba to Facebook to Visa, and the most valuable start-ups, such as Airbnb and Uber, are matchmakers that connect one group of customers with another group of customers. Economists call matchmakers multisided platforms because they provide physical or virtual platforms for multiple groups to get together.

Matchmakers: The New Economics of Multisided Platforms ...

Matchmakers lies somewhere between being a guide for entrepreneurs to start their own multisided platform and being an introductory, economics handbook on multisided platforms, although Evans and Schmalensee land closer to the former than the latter. As a person with a background in economics, I wish the authors would focus more on the economics and theoretical models behind multisided platforms, but the book features more anecdotal examples of rather than research papers on such platforms.
