"Dedicated to the next generation of young bakers, [this book] presents more than eighty-five fun and empowering recipes to inspire imagination in the kitchen, from apple pie waffles to PB&J cereal treats to strawberries and cream cupcakes to marshmallowy choco crunch cookies. This is a cookbook that teaches kitchen skills and also shows bakers the brilliance of what a little personality can bring to the mix"--

Go off the clock with Christina Tosi of Momofuku Milk Bar as she bakes one-bowl treats, grills with skills, and embraces simple, nostalgic—and often savory—recipes made from supermarket ingredients. For anyone addicted to crack pie®, compost cookies®, and cake truffles, here are their savory counterparts—such as Kimcheezits with Blue Cheese Dip, Burnt Honey-Butter Kale with Sesame Seeds, and Choose Your Own Adventure Chorizo Burgers—along with enough make-at-home sweets to satisfy a cookie-a-day habit. Join Christina and friends as they cook their way through “weaknights,” sleepovers, and late-night snack attacks to make mind-blowingly delicious meals with whatever is in the pantry.

Welcome to the sugar-fueled, manically creative cake universe of Christina Tosi. It's a universe of ooey-goey banana-chocolate-peanut butter cakes you make in a crockpot, of layer cakes that taste like Key lime pie, and the most baller birthday cake ever. From her home kitchen to the creations of her beloved Milk Bar, All About Cake covers everything: two-minute microwave mug cakes, buttery Bundts and pounds, her famous cake truffles and, of course, her signature naked layer cakes filled with pops of flavors and textures. But more than just a collection of Christina's greatest-hits recipes (c'mon, like that's not enough?) this book will be your guide for how to dream up and make cakes of any flavor you can think of, whether you're a kitchen rookie or a full-fledged baking hardbody.

Finnegans Wake James Joyce - A daring work of experimental, Modernist genius, James Joyce's Finnegans Wake is one of the greatest literary achievements of the twentieth century, and the crowning glory of Joyce's life. Joyce's final work, Finnegan's Wake is his masterpiece of the night as Ulysses is of the day. Supreme linguistic virtuosity conjures up the dark underground worlds of sexuality and dream. Joyce undermines traditional storytelling and all official forms of English and confronts the different kinds of betrayal - cultural, political and sexual - that he saw at the heart of Irish history. Dazzlingly inventive, with passages of great lyrical beauty and humour, Finnegans Wake remains one of the most remarkable works of the twentieth century. James Joyce (1882-1941), the eldest of ten children, was born in Dublin, but exiled himself to Paris at twenty as a rebellion against his upbringing. He only returned to Ireland briefly from the continent but Dublin was at heart of his greatest works, Ulysses and Finnegans Wake. He lived in poverty until the last ten years of his life and was plagued by near blindness and the grief of his daughter's mental illness.

With 200,000+ copies in print, this New York Times bestseller shares the story and the recipes behind the chef and cuisine that changed the modern-day culinary landscape. Never before has there been a phenomenon like Momofuku. A once-unrecognizable word, it's now synonymous with the award-winning restaurants of the same name in New York City (Momofuku Noodle Bar, Ssäm Bar, Ko, Má Pêche, Fuku, Nishi, and Milk Bar), Toronto, and Sydney. Chef David Chang single-handedly revolutionized cooking in America and beyond with his use of bold Asian flavors and impeccable ingredients, his mastery of the humble ramen noodle, and his thorough devotion to pork. Chang relays with candor the tale of his unwitting rise to superstardom, which, though wracked with mishaps, happened at light speed. And the dishes shared in this book are coveted by all who've dined—or yearned to—at any Momofuku location (yes, the pork buns are here). This is a must-read for anyone who truly enjoys food.

"You can be lonely anywhere, but there is a particular flavor to the loneliness that comes from living in a city, surrounded by thousands of strangers. The Lonely City is a roving cultural history of urban loneliness, centered on the ultimate city: Manhattan, that teeming island of gneiss, concrete, and glass. What does it mean to be lonely? How do we live, if we're not intimately involved with another human being? How do we connect with other people, particularly if our sexuality or physical body is considered deviant or damaged? Does technology draw us closer together or trap us behind screens? Olivia Laing explores these questions by travelling deep into the work and lives of some of the century's most original artists, among them Andy Warhol, David Wojnarowicz, Edward Hopper, Henry Darger and Klaus Nomi. Part memoir, part biography,

part dazzling work of cultural criticism, The Lonely City is not just a map, but a celebration of the state of loneliness. It's a voyage out to a strange and sometimes lovely island, adrift from the larger continent of human experience, but visited by many - millions, say - of souls"--

This book is about the 'how' of desertification control as opposed to an analysis of the 'why' and fills a gap in the desertification-related literature in that it shows what to do in situations ranging from fixing mobile sands to arresting accelerated soil erosion in sloping lands. There are numerous illustrations to show the successful techniques. This compilation demonstrates that desertification and land degradation can be controlled and reversed with existing techniques in such widely varying environments as the Sahel of Africa to Sri Lanka and the Philippines in SE Asia, from mountains in Lesotho to low lands on desert margins in Mongolia. Proven approaches include technical interventions, changes in governance and to the legislative framework and policy reform. The book fills a gap in the desertification-related literature in that it shows what to do in situations ranging from fixing mobile sands to arresting accelerated soil erosion in sloping lands.
