So far working stress method was used for the design of steel structures. Nowadays whole world is going for the limit state method which is more rational. Indian national code IS:800 for the design of steel structures was revised in the year 2007 incorporating limit state method. This book is aimed at training the students in using IS: 800 2007 for designing steel structures by limit state method. The author has explained the provisions of code in simple language and illustrated the design procedure with a large number of

problems. It is hoped that all universities will soon adopt design of steel structures as per IS: 2007 and this book will serve as a good textbook. A sincere effort has been made to present design procedure using simple language, neat sketches and solved problems.

MATH 221 FIRST Semester Calculus By Sigurd Angenent

The book explores data analytics concepts and applications in marketing and business. Business and marketing analytics can create value by guiding how organizational resources are optimally allocated and managed. Covering both predictive and prescriptive analysis, the book discusses optimization techniques for stronger business performance.
