Python in a Nutshell - Alex Martelli - Google Books
Despite advertised humorousness, Python in a Nutshell is a very dryly written book which piles a lot of facts in what I cannot see as anything but random order. I tried reading it twice and couldn't get myself past the first 100 pages or so - this rarely happens to me with programming books.

Python in a Nutshell by Alex Martelli - Goodreads
A program's control flow is the order in which the program's code executes. The control flow of a Python program is regulated by conditional statements, loops, and function calls. This section covers the if statement and for and while loops; functions are covered later in this chapter.
