Emily Whitman (Author of Radiant Darkness)

As a story about a young woman learning that she can control her own destiny and not have to follow the lines put down by others | her mother, her husband | Radiant Darkness works well. And while I do sometimes wish there'd been more subversion in Persephone's character and story overall, I thought her youthful narrative was very charming.

Until the day comes that Persephone must leave|and they realize that trusting each other is the only way they'll ever meet again. In Burning the Midnight Oil, word-wrangler extraordinaire Phil Cousineau has gathered an eclectic and electric collection of soulful poems and prose from great thinkers throughout the ages. Whether beguiling readers with glorious poetry or consoling them with prayers from fellow restless souls, Cousineau can relieve any insomniac's unease. From St. John of the Cross to Annie Dillard, Beethoven to The Song of Songs, this refreshingly insightful anthology soothes and inspires all who struggle through the dark of the night. These "night thoughts" vividly illustrate Alfred North Whitehead's liberating description of "what we do without solitude" and also evoke Henry David Thoreau's reverie, "Our truest life is when we are in dreams awake." The night writers in Cousineau's vesperal collection range from saints, poets, and shamans to astronomers and naturalists, and tells of ancient tales and shinning passages from the most brilliant (albeit insomniac) writers of today. These poetic ponderances sing of the falling darkness, revel in dream-time, convey the ache of melancholy, conspire against sleeplessness, vanquish loneliness, contemplate the night sky, rhapsodize on love, and languorously greet the first rays of dawn. Notable night owls include Rabandranath Tagore, Mary Oliver, Manley Hopkins, Jorge Borges and William Blake.

A Gate Enables passage between what is inside and what is outside, and the connection poetry forges between inner and outer lives is the fundamental theme of these nine essays. Nine Gates begins with a close examination of the roots of poetic craft in "the mind of concentration" and concludes by exploring the writer's role in creating a sense of community that is open, inclusive and able to bind the individual and the whole in a way that allows each full self-expression. In between, Nine Gates illumines the nature of originality, translation, the various strategies by which meaning unfolds itself in language, poetry's roots in oral memory and the importance of the shadow to good art. A person who enters completely into the experience of a poem is initiated into a deeper intimacy with life. Delving into the nature of poetry, Jane Hirshfield also writes on the nature of the human mind, perception and experience. Nine Gates is about the underpinnings of poetic craft, but it is also about a way of being alive in the world -- alertly, musically, intelligently, passionately, permeably. In part a primer for the general reader, Nine Gates is also a manual for the working writer, with each "gate" exploring particular strategies of language and thought that allow a poem to convey meaning and emotion with clarity and force. Above all, Nine Gates is an insightful guide to the way the mind of poetry awakens our fundamental consciousness of what can be known when a person is most fully alive.
