Renold Chains - Graces Guide

19th Century. Way back in 1880 when the few cyclists on the roads were more than likely riding high on a Penny Farthing, young engineer Hans Renold achieved a significant technical breakthrough when he invented the bush roller chain. This innovative chain technology solved many problems inherent in existing solutions and brought a new level of performance, efficiency and flexibility to the transmission of mechanical power.

History - Renold Power Transmission Limited

1954 Company becomes Renold Chains Ltd. and introduced their improved design of bi-planar chain with their patent. 1955 A factory in Burton-upon-Trent, Staffordshire, was acquired for the separate manufacture of conveyor chain and agricultural chain machinery. 1956 Renold acquired Anchor Chain Co of Oldham.
