Resentment (also called ranklement or bitterness) is a complex, multilayered emotion that has been described as a mixture of disappointment, disgust, anger, and fear. Other psychologists consider it a mood or as a secondary emotion (including cognitive elements) that can be elicited in the face of insult and/or injury.

Since the election of Scott Walker, Wisconsin has been seen as ground zero for debates about the appropriate role of government in the wake of the Great Recession. In a time of rising inequality, Walker not only survived a bitterly contested recall that brought thousands of protesters to Capitol Square, he was subsequently reelected. How could this happen? How is it that the very people who stand to benefit from strong government services not only vote against the candidates who support those services but are vehemently against the very idea of big government? With *The Politics of Resentment*, Katherine J. Cramer uncovers an oft-overlooked piece of the puzzle: rural political consciousness and the resentment of the "liberal elite." Rural voters are distrustful that politicians will respect the distinct values of their communities and allocate a fair share of resources. What can look like disagreements about basic political principles are therefore actually rooted in something even more fundamental: who we are as people and how closely a candidate's social identity matches our own. Using Scott Walker and Wisconsin's prominent and protracted debate about the appropriate role of government, Cramer

illuminates the contours of rural consciousness, showing how place-based identities profoundly influence how people understand politics, regardless of whether urban politicians and their supporters really do shortchange or look down on those living in the country. The Politics of Resentment shows that rural resentment—no less than partisanship, race, or class—plays a major role in dividing America against itself.

In this fascinating book about our struggle to forgive, psychologist and award-winning author Robert Karen uses movies, people in the news, and sessions from his practice to illuminate the conflict between our wish to repair our relationships on one side and our tendency to see ourselves as victims who want revenge on the other. Why do we harden our hearts, even against those we want to love? Why do we find it so hard to admit being wrong? Why are the worst grudges the ones we hold against ourselves? When we nurse our resentments, Karen says, we are acting from an insecure aspect of the self that harbors unresolved pain from childhood. But we also have a forgiving self which is not compliant or fake, but rather the strongest, most loving part of who we are. Through it, we are able to voice anger without doing damage, to acknowledge our own part in what has gone wrong, to see the flaws in ourselves and others as part of our humanity. Karen demonstrates how we can move beyond our feelings of being wronged without betraying our legitimate anger and need for repair. The forgiving self, when we are able to locate it, brings relief from compulsive self-hatred and bitterness, and allows for a re-emergence of love.

In a novel capturing an era that seems at once familiar and grotesque, a New York writer lands in Los Angeles in 1994. Originally published in 1997, Resentment was the first in Gary Indiana's now-classic trilogy (followed in 1999 by Three Month Fever: The Andrew Cunanan Story and in 2003 by Depraved Indifference) chronicling the more-or-less permanent state of "depraved indifference" that characterized American life at the millennium's end. In Resentment, Seth, a New York-based writer arrives in Los Angeles (where he has history and friends) in mid-August, 1994, to observe what will become the marathon parricide trial of the wealthy, athletic, and troubled Martinez brothers, broadcast live every day on Court TV. Still reeling from the end of his obsessive courtship of a young SoHo artist/waiter, Seth moves between a room at the Chateau Marmont and a Mount Washington shack owned by his old cab-driving, ex-Marxist friend, Jack, while he writes a profile of Teddy Wade—one of the era's hottest young actors, who has "dared" to star as a gay character in a new Hollywood film. Studded throughout with scathing satirical portraits of media figures, other writers, and the Martinez trial teams, Resentment captures an era that seems, two decades later, at once grotesque, familiar, and a precursor to our own.

A thriller which opens with a grisly, intimate double murder and quickly fans out through the boulevards and freeways of a twilight world that is L.A.

A thought-provoking look at how racial resentment, rather than racial prejudice alone, motivate a growing resistance among whites to improve the circumstances faced by racial minorities. In Racial Resentment in the Political Mind, Darren W. Davis

and David C. Wilson explore the idea that racial resentment, rather than simply racial prejudice alone, is the basis for the growing resistance among whites toward efforts to improve the circumstances faced by minorities. The authors argue that there is a growing sentiment among whites that they are "losing-out" and "being cut in line" by Black people and other minorities, as reflected in an emphasis on diversity and inclusion, multiculturalism, trigger warnings, and political correctness, an increase in African Americans occupying powerful positions, and the election of Barack Obama. The culprits, as many white people see it, are undeserving people of color, who are perceived to benefit unfairly from, and take advantage of, resources that come at whites' expense. This rewarding of unearned resources is seen as a challenge to the status quo. Yet, as Davis and Wilson reveal, such reactions may not stem only from racial prejudice or hatred; instead, they may be a defensive posture, resulting from threats to whites' sense of justice, entitlement, and status. Their research finds racial resentment, stemming from beliefs about justice, fairness, and deservingness makes ordinary citizens appear racist. Informative and thought-provoking, *Racial Resentment in the Political Mind* adds a much-needed dimension to a timely topic.

Re\*sent\*mentThe act of hating - no, fucking loathing Dean Collins. (Yes, I'm well aware that's not the actual definition, but it might as well be . . .)It's been ten years since we've seen each other and the feelings are still as strong.I'm not going to bore you with all the details of how our love was once intoxicating, consuming, and perfect.Because it was . . . until it wasn't.I've been fine without him. I haven't missed his cruelty, his coldness and his spite. And after the ugliest breakup in the history of breakups, I forced myself to move on. Year by year, the feelings I had for him slowly drifted away, but one encounter with him recently changed everything. One encounter made me realize how the heart doesn't forget shit, and how my mind is going to have to work overtime to make sure I never forget my definition of resentment.

Resentment is a killer in most people's lives. How do we let it go? We have all dealt with hurt in life. Whether it was a person who spoke wrongly about you or a job that let you go without warning, these situations can be painful. Overtime, those feelings of hurt can turn into unforgiveness, and unforgiveness births resentment. Even though forgiveness does not change the past, it will enlarge your future. Pastor Arni Jacobson, through his own personal experience and walking through the life of Joseph, will give you a Biblical format for overcoming resentment. "Resentment carries a high price tag. Why not let this book by my friend Pastor Arni Jacobson be the moment your life gets set free from past hurts, wounds, and disappointments?" -Pastor Larry Stockstill, Pastor, Missionary, Worldwide Evangelist, and Author of Best-Selling Book, *The Remnant* Arni Jacobson is a successful Pastor, Church planter, mentor, and author. He is an Executive Board Member and the Director of Leadership and Church Expansion for Grace International in Houston, TX. He is a national and international Church and business speaker. He is the founder of mega-church Bayside Christian Fellowship (now Celebration Church) in Green Bay, WI and the co-founder of City Church in Salt Lake City, UT. He is the former Chaplin of the Green Bay Packers.

Everyone experiences hurt in relationships, but most of the time we are able to forgive and forget. But sometimes we experience a major hurt that lingers in our minds and leads to bitterness. We feel trapped by the resulting hostility, ongoing broken relationships, and inability to move on. Can you escape the sorrow and soul impoverishment that bitterness brings? Robert D. Jones explains how a relationship with Jesus, a man of sorrows and familiar with suffering, can free you from bitterness. Then he outlines practical ways to live out the gospel in difficult relationships. Healing and freedom is possible, even for long-lasting hurts.
