Geographical perception of rural-urban fringe A landscape can be referred to as a 'place' which has been used as an alternative to a location. Places can be categorized in different ways on the basis of people's perception. Places can be categorized as 'urban' or 'rural' (Cresswell 2014). Rural-urban fringe areas are

ABSTRACT: This paper investigates the emergence of diversified landscapes in postreform China. The new urban forms are understood as a result of broader changes in the institutional and sociocultural spheres since reform. The commodification of housing provision on the supply side and the rise of a new rich and consumer culture on the demand side have together led to an ever-important role ...

Landscape urbanism is a theory of urban design arguing that the city is constructed of interconnected and ecologically rich horizontal field conditions, rather than the arrangement of objects and buildings. Landscape Urbanism, like Infrastructural Urbanism and Ecological Urbanism, emphasizes performance over pure aesthetics and utilizes systems-based thinking and design strategies.
