[MOBI] ~~Sabertooth Cats Ice Age Animals~~

There are many different types of saber-tooth cats, and they existed in different time periods. Some saber-tooth cats lived 9 million years ago, while others lived on Earth up to the last ice age, which was 10,000 years ago. The more recent saber-tooth cats became extinct due to a loss of available prey.

A saber-toothed cat is any member of various extinct groups of predatory mammals that are characterized by long, curved saber-shaped canine teeth which protruded from the mouth even when closed. The saber-toothed cats have been found almost worldwide from the Eocene epoch to the end of the Pleistocene epoch 42 million years ago – 11,000 years ago. The first saber-toothed cat fossil in Canada was found in Medicine Hat, Alberta. One of the best-known genera is *Smilodon*, species of which ...
