Social, economic, and cultural change. The population expanded rapidly in the 13th century, reaching a level of about five million. Great landlords prospered with the system of high farming, but the average size of small peasant holdings fell, with no compensating rise in productivity. There has been debate about the fate of the knightly class: some historians have argued that lesser landowners suffered a decline in wealth and numbers, while others have pointed to their increased political ...

Social change happens because people fight for it. Along with others, care leavers have worked incredibly hard to have their voices heard - before, during and after the Royal Commission. One of the films in the MoAD exhibition features Leonie Sheedy from Care Leavers Australasia Network (CLAN). Leonie talks about the history of CLAN, the many years of activism and lobbying undertaken by care leavers, and the importance of establishing an Australian Orphanage Museum to preserve objects and ...

Social change can evolve from a number of different sources, including contact with other societies (diffusion), changes in the ecosystem (which can cause the loss of natural resources or widespread disease), technological change (epitomized by the Industrial Revolution, which created a new social group, the urban proletariat), and population growth and other demographic variables. Social change is also spurred by ideological, economic, and political movements.
