He uses the metaphors of "architecture" and "construction" to help us understand that society is not something that exists "out there," independently of ourselves; rather, it is a human creation that is planned,

maintained, or altered by individuals. Instead of surveying every subfield in sociology, this text focuses on the structural features of society, the social construction of the self and identity, and social inequality in the context of social institutions.

Sociology: Exploring the Architecture of Everyday Life ...

Summary The intro textbook that keeps students reading. Continuing his tradition of highly engaging, trade-like writing, best-selling author David Newman once again starts in a familiar place - the everyday world - and then introduces sociological concepts and institutions as they influence students' daily existence.
