This book is a comprehensive investigation, discussion, and analysis of the origins and development of the first civil war in the Sudan, which occurred between 1955 and 1972. It was the culmination of ethnic, racial, cultural, religious, political, and economic problems that had faced the Sudan since the Turco-

Egyptian conquest of the country in 1821. The hostilities between the Northern and Southern regions of the Sudan also involved foreign powers that had their own geopolitical interests in the country. The first Sudanese civil war is a classic example of intra-regional and inter-regional conflicts in Africa in the 20th century.

This volume examines the unique characteristics of akshara orthography and how they may affect literacy development and problems along with the implications for assessment and instruction. Even though akshara orthography is used by more than a billion people, there is an urgent need for a systematic attempt to bring the features, research findings, and future directions of akshara together in a coherent volume. We hope that this volume will bridge that gap. Akshara is used in several Indic languages,

each calling it by a slightly different name, for example 'aksharamu', in Telugu, 'akshara' in Kannada, and 'akshar' in Hindi. It is the Bhrami-derived orthography used across much of the Indian subcontinent. There is a growing body of research on the psycholinguistic underpinnings of learning to read akshara, and the emerging perspective is that akshara, even though classified as alphasyllabaries, abugida, and semi-syllabic writing systems, is neither alphabetic nor syllabic. Rather, akshara orthography is unique and deserves to be a separate classification and needs further investigation relating to literacy acquisition in akshara. The chapters in this volume, written by leading authors in the field, will inform the reader of the current research on akshara in a coherent and systematic way.

I want to be direct, my name is Greg. I go by "Onision" online. This book is made up of events that occurred in my own life mixed with fiction from the made up life of James. James is essentially a better version of myself. His home, his school & his life all resemble my own at his age. The people James analyzes and is surrounded by are not so unlike those I've known as well. I have experienced much of the loss James has however his happier moments are more often than not also mine. I want to share my story without it being purely non-fiction. I simply felt this approach would make for a far better book. Stones to Abbigale is not just my book, it is a piece of who I am.
