Historically, much of the African diaspora population began in the Americas, Europe and later expanded in Asia. A significant reason for this occurred during the slave trade era across the Arab and Atlantic Ocean. Scholars believe that this was the origins of the concept of the African diaspora, which occurred during the 16th and 19th centuries.

Patrick Manning follows the multiple routes that brought Africans and people of African descent into contact with one another and with Europe, Asia, and the Americas. In joining these stories, he shows how the waters of the Atlantic Ocean, the Mediterranean Sea, and the Indian Ocean fueled dynamic interactions among black communities and cultures and how these patterns resembled those of a number of connected diasporas concurrently taking shaping across the globe. Manning begins in 1400 and traces the connections that enabled Africans to mutually identify and hold together as a global community. He tracks discourses on race, changes in economic circumstance, the evolving character of family life, and the growth of popular culture. He underscores the profound influence that the African diaspora had on world history and demonstrates the inextricable link between black migration and the rise of modernity. Inclusive and far-reaching, The African Diaspora proves that the advent of modernity cannot be fully understood without taking the African peoples and the African continent into account.

This 2005 book examines the global unfolding of the migrations and dispersals of the African Diaspora.

In this definitive study of the African diaspora in North America, Toyin Falola offers a causal history of the western dispersion of Africans and its effects on the modern world.

Captures the essential political, cultural, social, and economic developments that shaped the black experience.

As Africans and descendants of slaves have sought to expand an understanding of their history, focus on the African diaspora--the global dispersal of a people and their culture--has increased. African studies have assumed a prominent place in historical scholarship, and a growing number of non-African scholars has helped revise a discipline established over several decades. The six contributions in this volume were compiled as a result of the thirtieth Walter Prescott Webb Memorial Lecture held at the University of Texas at Arlington. The contributors, nationally recognized in the field, represent a collaborative analysis of the African diaspora from African and non-African perspectives. Joseph E. Harris discusses how the African diaspora influences the economies, politics, and social dynamics of both the homeland and the host country. Alusine Jalloh reconstructs the mercantile activities of the Fula in colonial Sierra Leone. Joseph E. Inokori argues that slavery and serfdom in medieval Europe provide greater insights into precolonial Africa than do standard New World comparisons. Colin A. Palmer examines the power relationships that undergirded American slavery in order to better understand the enslaved. Douglas B. Chambers reveals the enduring influence of Africanisms in the historical development of Afro-Virginian slave culture. And Dale T. Graden looks at African slavery in Salvador, Bahia, Brazil between 1848 and 1856, focusing on the Bahian elite and their response to slave resistance.

The first monograph to investigate the poetics and politics of haunting in African diaspora literature, Ghosts of the African Diaspora: Re-Visioning History, Memory, and Identity examines literary works by five contemporary writers - Fred D'Aguiar, Gloria Naylor, Paule Marshall, Michelle Cliff, and Toni Morrison. Joanne Chassot argues that reading these texts through the lens of the ghost does cultural, theoretical, and political work crucial to the writers' engagement with issues of identity, memory, and history. Drawing on memory and trauma studies, postcolonial studies, and queer theory, this truly interdisciplinary volume makes an important contribution to the fast-growing field of spectrality studies.

Focusing on the problems and conflicts of doing African diaspora research from various disciplinary perspectives, these essays situate, describe, and reflect on the current practice of diaspora scholarship. Tejumola Olaniyan, James H. Sweet, and the international group of contributors assembled here seek to enlarge understanding of how the diaspora is conceived and explore possibilities for the future of its study. With the aim of initiating interdisciplinary dialogue on the practice of African diaspora studies, they emphasize learning from new perspectives that take advantage of intersections between disciplines. Ultimately, they advocate a fuller sense of what it means to study the African diaspora in a truly global way.
