The Dutch composer, Louis Andriessen, has been writing and talking about his own work and everything which is directly, indirectly, or nothing at all to do with it, for many years now and The Art of Stealing Time is a collection of these articles, lectures and interviews. Andriessen talks about his childhood memories, his literary and cinematic preferences, colleagues he admires and ensembles he has established. He also talks about his own work, from De Staat (The Republic), the piece with which, twenty-five years ago, he changed the face of the musical landscape in the Netherlands up to and including the last opera he created with Peter Greenaway. Writing to Vermeer, Andriessen's style is informal, direct and always engaging, and through his use of anecdote, he is able to convey complex ideas to the widest of audiences, musicians and non-musicians alike. Controversial, funny, stimulating and thought-provoking, The Art of Stealing Time gives us a unique insight into the mind and working methods of one of the most significant composers alive today. This is, without doubt, a book to return to again and again.

Experts in the art of stealing time, Travellers live on the edge of both mortal and immortal realms. But a few fight their outlaw instincts... Gwenhyfyr Byron Owens learned everything she knows about potions and spells from her two Wiccan moms, who are forbidden by Otherworld laws from teaching magic to mortals. But when their latest transgression results in the kidnapping of a mortal woman, Owen figures the only place to hide them all is in Anwyn, the Welsh afterlife... But Gregory Fas-a member of the Watch-is hot on their heels. A Traveller who has stolen time, he's eager to prove himself worthy of the Watch, only he has a past with the dark-eyed Welsh beauty he's been charged with bringing to justice. He's tempted to just let Owen disappear into Anwyn, until he realizes that she's being pursued by a squad of goons and death's minions. Owen is used to taking care of her moms and herself, so she can't give in to her heart's demand to trust Gregory, despite the fact that he's as handsome as the day is long-and the days in Anwyn can last centuries...

A behind-the-scenes look at the largest corporate merger in history describes how AOL purchased Time Warner, only to find itself in increasing financial difficulties, under investigation by the SEC and Justice Department, with top AOL executives having resigned. Reprint. 35,000 first printing.

A robbery in Scotland might not seem like an unusual background for a crime novel-until it's put into the hands of one of the U.K.'s leading satirists, Christopher Brookmyre. Now available for the first time in the U.S., The Sacred Art of Stealing is narrative catnip for fans of crime fiction laced with dark humor. This is how the story goes: Their eyes met across a crowded room. She was just a poor servant girl and he was the son of a rich industrialist. . . . Well, the eyes meeting across a crowded room part is true. Where it differs from the fairy tales is that the room in question was crowded with hostages and armed bank-robbers, and Zal Inez's eyes were the only part of him that Angelique de Xavia could see behind his mask. Angelique had enough to be fed up about before the embarrassment of being a cop taken hostage by the most bizarrely unorthodox crooks ever to set foot in Glasgow. Disillusioned, disaffected and chronically single, she's starting to take stock of the sacrifices she's made for a job that's given her back nothing but grief. So when her erstwhile captor has the chutzpah to phone her at work and ask her out on a date, Angelique finds herself in no great hurry to turn him in. She knows now that the cops will never love her back, but maybe one of the robbers will.

When he retired as the chief security officer of New York City's Metropolitan Museum of Art, John Barelli had spent the better part of forty years responsible not only for one of the richest treasure troves on the planet, but the museum's staff, the millions of visitors, as well as American presidents, royalty, and heads of state from around the world. For the first time, John Barelli shares his experiences of the crimes that occurred on his watch; the investigations that captured thieves and recovered artwork; the lessons he learned and shared with law enforcement professionals in the United States and abroad; the accidents and near misses; and a few mysteries that were sadly never solved. He takes readers behind the scenes at the Met, introduces curators and administrators, walks the empty corridors after hours, and shares what it's like to get the call that an ancient masterpiece has gone missing. The Metropolitan Museum covers twelve acres in the heart of Manhattan and is filled with five thousand years of work by history's great artists known and unknown: Goya, da Vinci, Rembrandt, Warhol, Pollack, Egyptian mummies, Babylonian treasures, Colonial crafts, and Greek vases. John and a small staff of security professionals housed within the Museum were responsible for all of it. Over the years, John helped make the museum the state-of-the-art facility it is today and created a legacy in art security for decades to come. Focusing on six thefts but filled with countless stories that span the late 1970s on into the 21st century, John opens the files on thefts, shows how museum personnel along with local and sometimes Federal Agents opened investigations and more often than not caught the thief. But of ultimate importance was the recovery of the artwork, including Celtic and Egyptian gold, French tapestries, Greek sculpture, and more. At the heart of this book there will always be art-those who love it and those who take it, two groups of people that are far from mutually exclusive.

This is your opportunity to get my best content on time management, time protection, productivity, and life and business success with this Amazon book for just \$6.99 for a limited time only. Regularly priced at \$9.99. Why You Must Read This Book This book will help you if you are someone who knows your true worth. You understand that you can accomplish so much more in this world, support your family so much better, or even run your business more efficiently. You are someone who is looking for the right tools and direction to take back control of your life. As you are aware of the number of distractions that one faces from family, friends, and work, and you know that this amount of lost time is mind-boggling. With all the technology we have at our disposal, we are actually getting less done, and being much less productive than we used to. There are many things you will discover in this book that will be eye-opening, and from there, you will know and be able to identify these areas in life and work where you can make drastic improvements on right away to get you on the right track. This book is for those who want to be the best they can be and who understand that time can be used against you, or it can be used to help you. Unfortunately, most people throw away this extremely precious commodity that they are given, but by you taking the first step and reading this book, you are right away taking back control of your life and getting ahead of millions that are not. You will take away life-changing methods and tactics to rewire your brain, the way you think, and the way you currently live your life. I want to offer you a blueprint that has dramatically helped me to take back control of my days and not let anything take away from the real things I need to do to grow as a person, and I hope you get the same and even better results. Remember one thing throughout this book - your life is a straight line from birth to death. Throughout that time, people, commitments, situations, everything and anything will try to divert you from your path in life and your ultimate goals. You then end up living someone else's life and not yours. No matter what age you are now, I don't want you to have any regrets. I want to give you the strength and confidence through the teachings of this book to always be mindful of where you are going and what you need to do to get there. Here Is Exactly What You Will Learn In This Book How to get time to work in your favor instead of you constantly fighting to find more of it. How you can get more done in a few hours, than most people can get done in an entire day. Learn all the sneaky tricks people, life, and work are using to steal your time right from underneath you. Why you need to focus on your time protection and the best ways to do this to achieve maximum success. Why protecting your time can make less stressful and allow you to enjoy your life much more. How multitasking is actually slowing you down and what you need to do instead. How to buy more time for yourself by having others give you theirs. How to use your north star for the ultimate guidance in how you should be always using your time. Plus so much more! Buy Your Copy Today Your success is closer than you think. Take action right now and buy this book for a limited time discount of only \$6.99 and better your life right now.

A spellbinding journey into the high-stakes world of art theft Today, art theft is one of the most profitable criminal enterprises in the world, exceeding \$6 billion in losses to galleries and art collectors annually. And the masterpieces of Rembrandt van Rijn are some of the most frequently targeted. In Stealing Rembrandts, art security expert Anthony M. Amore and award-winning investigative reporter Tom Mashberg reveal the actors behind the major Rembrandt heists in the last century. Through thefts around the world - from Stockholm to Boston, Worcester to Ohio - the authors track daring entries and escapes from the world's most renowned museums. There are robbers who coolly walk off with multimillion dollar paintings; self-styled art experts who fall in love with the Dutch master and desire to own his art at all costs; and international criminal masterminds who don't hesitate to resort to violence. They also show how museums are thwarted in their ability to pursue the thieves - even going so far as to conduct investigations on their own, far away from the maddening crowd of police intervention, sparing no expense to save the priceless masterpieces. Stealing Rembrandts is an exhilarating, one-of-a-kind look at the black market of art theft, and how it compromises some of the greatest treasures the world has ever known.

This book draws together empirical contributions which focus on conceptualising the lived realities of time and temporality in migrant lives and journeys. This book uncovers the ways in which human existence is often overshadowed by legislative interpretations of legal and illegalised. It unearths the consequences of uncertainty and unknowing for people whose futures often lay in the hands of states, smugglers, traffickers and employers that pay little attention to the significance of individuals' time and thus, by default, their very human existence. Overall, the collection draws perspectives from several disciplines and locations to advance knowledge on how temporal exclusion relates to social and personal processes of exclusion. It begins by conceptualising what we understand by 'time' and looks at how temporality and lived realities of time combine for people during and after processes of migration. As the book develops, focus is trained on temporality and survival during encampment, border transgression, everyday borders and hostility, detention, deportation and the temporal impacts of border deaths. This book both conceptualises and realises the lived experiences of time with regard to those who are afforded minimal autonomy over their own time: people living in and between borders.
