Using leveraged buyouts that load their acquired companies with loans, private equity firms have generated more than \$1 trillion in new debt—which will come due just when these businesses are least likely to be able to pay it off. "One of the finest, most compelling accounts of what happened to corporate America and Wall Street in the 1980's." -New York Times Book Review #1 New York Times bestseller and arguably the best business narrative ever written, Barbarians at the Gate is the classic account of the fall of RJR Nabisco. An enduring masterpiece of investigative journalism by Bryan Burrough and John Helyar, it includes a new afterword by the authors that brings this remarkable story of greed and double-dealings up to date twenty years after the famed deal. The Los Angeles Times calls Barbarians at the Gate, "Superlative." The Chicago Tribune raves, "It's hard to imagine a better story...and it's hard to imagine a better account." And in an era of spectacular business crashes and federal bailouts, it still stands as a valuable cautionary tale that must be heeded.

Annotation. Successful management buyouts (MBOs) are the pinnacle of business success today and a great way to earn an ever-increasing stake in the American dream. Buyout provides managers and executives with the necessary tools and strategies for leading a company or division buyout. It explores the details of the entire buyout process and empowers managers to seize their destiny and take charge. Managers learn how to: -- Find a company to purchase -- Develop a business plan -- Negotiate with the seller -- Win the "ground war" of due diligence -- Find equity partners and negotiate your management deal with investors -- Run the company after the MBO. Buyout offers real life stories of people who actually pulled off out-of-this-world deals and became rich beyond their wildest expectations.

The private equity industry is at a cross-roads. In the easy money years between 2004 and 2008, it was awash with investment, debt was easily obtained and some rash, over-leveraged deals were done by the so-called "mega buyout" funds. Today, fund managers are dealing with the legacy of that era, while also figuring out how best to secure new investment and make attractive returns in the age of deleveraging. Many firms are succeeding, sometimes spectacularly, in both developed and emerging markets. Some have developed innovative new business models, while others have reinvented the old. This book contains exclusive interviews with the leaders of many of the world's most successful and innovative funds. These include: Steve Klinsky and Ajit Nedungadi of US growth investors New Mountain Capital and TA Associates; Jon Moulton and Wol Kolade of the British turnaround and growth specialists Better Capital and ISIS Equity Partners; Niten Malhan of Warburg Pincus' Indian operation; Derek Sulger, an Anglo-American who transitioned from setting up telecoms businesses in China to founding Lunar Capital, which backs indigenous entrepreneurs; pan-emerging market specialist Actis and innovative investors in Africa and the Middle East such as Citadel Capital's Hisham El-Khazindar and Abraaj's Mustafa Abdel-Wadood. These in-depth interviews tease out issues such as how private equity managers can best create enterprise value and out-perform public markets without returning to pre-crisis levels of leverage, techniques for differentiating a firm's capital, the sustainability of private equity in emerging markets, the role of the industry in low-income countries and alternatives to the established limited partnership governance model. The Future of Private Equity: Beyond the Mega Buyout is essential reading for anyone working in or with the private equity industry, anywhere in the world.
