The pioneer of herbal veterinary medicine has again thoroughly revised, updated and expanded her book on natural and organic cures and farming methods, first published in 1952 and now a classic in its field.

Dog and cat owners are becoming increasingly concerned about the safey of processed pet food and the possible side-effects of over-use of antibiotics and hormone treatments. This new edition, thoroughly revised and updated, covers Natural Rearing, herbal medicine and disease prevention.

Breverton's Complete Herbal is a modern reworking of Culpeper's classic reference guide, Culpeper's Complete Herbal. Arranged alphabetically, this book describes over 250 herbs and spices as well as feature entries on scented herb/medicinal gardens, the great herbalists and New World Herbs not included in Culpepper's original text. Each entry provides a description of the herb: its appearance and botanical features, a brief history of its uses in medicine, dyeing and cuisine to bizarre remedies and concoctions designed to get rid of all manner of real and imaginary ailments. As informative as it is entertaining, this incredibly diverse compendium contains just about everything you'll ever need to know about the properties and provenance of herbs and spices of the world. From amara dulcis to yarrow, all-heal to viper's bugloss, Breverton's Complete Herbal is a modern day treasury of over 250 herbs and their uses.

Now available in paperback, this is the fifth edition of Levy's handbook for herbal veterinary care. Updated to include information on cats as well as dogs, this guide covers rearing of young, treating specific diseases with herbs, and a general discussion on disease prevention.

Herbs for Health is a comprehensive and practical guide to herbal medicine. It discusses the history and modern practice of herbalism, including Chinese, Native American, and Welsh influences. • Includes a practical reference section listing the effects of various herbs, with prescriptions on how to use them for a wide range of illnesses. • Covers the fundamentals of growing, drying, storing, and cooking with herbs. • Over 45,000 copies of previous edition sold. This compendium of medical herbalism by one of the most eminent herbalists practicing today is both comprehensive and practical. Answering basic as well as complicated questions about herbal medicine, it provides both the novice and the experienced practitioner with a reliable framework in which to develop their herbal skills. A discussion of the history and modern practice of herbalism, encompassing the influences of Welsh, Chinese, and Native American herbal medicine is followed by a practical reference section that lists the various actions herbs have on the body (carminative, anti-inflammatory, etc.), with examples of herbs and their mode of activity in each category. Herbal prescriptions for various illnesses are also organized under the main systems of the body so that information can be quickly and easily referenced. A final section covers the fundamentals of growing, drying storing and cooking with herbs, as well as the making of infusions, decoctions, oils, and ointments. The author also provides helpful introductions to aromatherapy and plant medicines.

Herbal medicines have been used for many centuries to treat illnesses and restore health, and today herbalism still remains the most widely-practiced form of medicine around the world. Written by a leading medical herbalist, The Complete Herbal Tutor provides in-depth knowledge of the practice and theory of herbal medicine, including everything you need to know about its history, how it works, how to grow, gather and prepare herbs, and how to use them to create an herbal prescription. The rigorously researched and illustrated materia medica contains over 150 herbs, with clear explanations of their properties, active ingredients, and the latest scientific developments on their uses. There is also a clear explanation of how herbs can be used to treat each of the body's systems, with advice on using remedies for healing a range of specific conditions.
