Activity theory reflects the functionalist perspective that the equilibrium, that an individual develops in middle age, should be maintained in later years. The theory predicts that older adults that face role loss will substitute former roles with other alternatives.

The Functionalist Perspective on Aging | Boundless Sociology

A structural functionalist approach emphasizes social solidarity, divided into organic and mechanical typologies, and stability in social structures. Deviance provides the key to understanding the disruption and recalibration of society that occurs over time. Some traits that could

Functionalist Perspective on
Socialization The Functionalist
paradigm describes society as
stable and describes all of the
various mechanisms that maintain
social stability. Functionalism
argues that the social structure is
responsible for all stability and
instability, and that that the social
structure is continuously
attempting to maintain social
equilibrium among all the
components of society.

Gender inequality was most robustly articulated in the 1940s and 1950s, and largely developed by Talcott Parsons' model of the nuclear family. A structural functionalist view of gender inequality applies the division of labor to view predefined gender roles as complementary: women take care of the home while men provide for the family.

Definition of functionalist perspective of gender ...

Functionalism is a framework that sees society as a complex system whose parts work together to promote solidarity and stability. Functionalists argue that a sick individual is not a productive member of society; therefore this deviance needs to be policed. This
