The Portable Karl Marx (Portable Library) by Karl Marx ...

The portable Karl Marx, selected, translated in part, and with an introduction by Eugene Kamenka

Includes the complete Communist Manifesto and substantial extracts from On the Jewish Question, the German Ideology, Grundrisse, and Capital, a broad representation of his letters, and lesser-known works, especially his long-unavailable, early works.

Writings by Karl Marx concerning communism, politics, and economics are accompanied by a selection of his letters and reminiscences.

Written during Karl Marx's brilliant career as a polemical journalist, these blazing pieces tackle subjects ranging from the strikes of angry British workers to insurrection in Europe, from the American Civil War to the misery of colonial rule in India, demonstrating the radical spirit and outrage at social injustice that would make him one of the most influential political philosophers of all time. Throughout history, some books have changed the world. They have transformed the way we see ourselves - and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives - and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are.

“If you are curious and open to the life around you, if you are troubled as to why, how and by whom political power is held and used, if you sense there must be good intellectual reasons for your unease, if your curiosity and openness drive you toward wishing to act with others, to ‘do something,’ you already have much in common with the writers of the three essays in this book.” — Adrienne Rich With a preface by Adrienne Rich, Manifesto presents the radical vision of four famous young rebels: Marx and Engels’ Communist Manifesto, Rosa Luxemburg’s Reform or Revolution and Che Guevara’s Socialism and Humanity.

Se muestra tanto la cronología como el desarrollo temático de los dos grandes pensadores. Abarca desde la historia, la sociedad y la economía, hasta la política, la filosofía, y la estrategia y táctica de la revolución social. Se presenta los escritos del joven Marx, las obras que despertaron tanto interés y provocó tanto debate en los últimos años. Se esboza, la estrategia y las tácticas del movimiento revolucionario. Incluye escritos sobre sociedad y política en el siglo XIX, no solo

Europeos, sino también asiáticos y rusos. Se presenta los últimos escritos de Engels, en los que el marxismo fue popularizado y sistematizado en beneficio de las masas. El lector de Marx-Engels contiene una introducción general interpretativa que rastrea y analiza el desarrollo de la filosofía marxista.

Karl Marx (1818-1883) is arguably the most famous political philosopher of all time, but he was also one of the great foreign correspondents of the nineteenth century. During his eleven years writing for the New York Tribune (their collaboration began in 1852), Marx tackled an abundance of topics, from issues of class and the state to world affairs. Particularly moving pieces highlight social inequality and starvation in Britain, while others explore his groundbreaking views on the slave and opium trades - Marx believed Western powers relied on these and would stop at nothing to protect their interests. Above all, Marx's fresh perspective on nineteenth-century events encouraged his readers to think, and his writing is surprisingly relevant today. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

Presents excerpts on the subject of religion from the writings of such notable non-believers as John Stuart Mill, Karl Marx, Charles Darwin, Mark Twain, H. L. Mencken, Albert Einstein, Richard Dawkins, and Salman Rushdie.

Perhaps the most influential and widely read political work of the 19th century, Karl Marx and Friedrich Engels' *The Manifesto of the Communist Party* succinctly lays out the political theory and history of class struggle. Following a short introduction, the *Manifesto* develops over four short chapters, discussing the historical background of class struggle, the relationship of Communists with other socialist and working class movements, a critical review of other contemporary socialist literature and thinking, and finally a brief summary of the Communist position related to the contemporary political situations in various European countries, concluding with the rousing call-to-arms, "Workingmen of all countries unite!" This edition, translated by Samuel Moore, includes Engels' own Preface and footnote annotations written for the English edition of 1888. This book is part of the Standard Ebooks project, which produces free public domain ebooks.

Political theorists have long been frustrated by Nietzsche's work. Although he develops profound critiques of morality, culture, and religion, it is very difficult to spell out the precise political implications of his insights. He himself never did so in any systematic way. In this book, Tamsin Shaw claims that there is a reason for this: Nietzsche's insights entail a distinctive form of political skepticism. Shaw argues that the modern political predicament, for Nietzsche, is shaped by two important historical phenomena. The first is secularization, or the erosion of religious belief, and the fragmentation of moral life that it entails. The second is the unparalleled ideological power of the modern state. The promotion of Nietzsche's own values,

Shaw insists, requires resistance to state ideology. But Nietzsche cannot envisage how these values might themselves provide a stable basis for political authority; this is because secular societies, lacking recognized normative expertise, also lack a reliable mechanism for making moral insight politically effective. In grappling with this predicament, Shaw claims, Nietzsche raises profound questions about political legitimacy and political authority in the modern world.

This book is a complete translation of Marx's critical commentary on paragraphs 261-313 of Hegel's major work in political theory. In this text Marx subjects Hegel's doctrine on the internal constitution of the state to a lengthy analysis. It was Marx's first attempt to expose and criticize Hegel's philosophy in general and his political philosophy in particular. It also represents his early efforts to criticize existing political institutions and to clarify the relations between the political and economic aspects of society. The Critique provides textual evidence in support of the argument that Marx's early writings do not exhibit radically different doctrinal principles and theoretical and practical concerns from his later work. This edition also includes a translation of the introduction Marx wrote for his proposed revised version of the Critique which he never completed. In a substantial introduction, Professor O'Malley provides valuable information on Marx's intellectual development.
