A grieving widow discovers a most unexpected form of healing—hunting for mushrooms. "Moving . . . Long tells the story of finding hope after despair lightly and artfully, with self-effacement and so much gentle good nature."—"The New York Times Long Litt Woon met Eiolf a month after arriving in Norway from Malaysia as an exchange student. They fell in love, married, and settled into domestic bliss. Then Eiolf's unexpected death at fifty-four left Woon struggling to imagine a life without the man who had been her partner and anchor for thirty-two years. Adrift in grief, she signed up for a beginner's course on mushrooming—a course the two of them had planned to take together—and found, to her surprise, that the pursuit of mushrooms rekindled her zest for life. The Way Through the Woods tells the story of parallel journeys: an inner one, through the landscape of mourning, and an outer one, into the fascinating realm of mushrooms—resilient, adaptable, and essential to nature's cycle of death and rebirth. From idyllic Norwegian forests and urban flower beds to the sandy beaches of Corsica and New York's Central Park, Woon uncovers an abundance of surprises often hidden in plain sight: salmon-pink Bloody Milk Caps, which ooze red liquid when cut; delectable morels, prized for their earthy yet delicate flavor; and bioluminescent mushrooms that light up the forest at night. Along the way, she discovers the warm fellowship of other mushroom obsessives, and finds that giving her full attention to the natural world transforms her, opening a way for her to survive Eiolf's death, to see herself anew, and to reengage with life. Praise for The Way Through the Woods "In her search for new meaning in life after the death of her husband, Long Litt Woon undertook the study of mushrooms. What she found in the woods, and expresses with such tender joy in this heartfelt memoir, was nothing less than salvation."—Eugenia Bone, author of Mycophilia and Microbia

Now it seems that someone who can hold back no longer is composing clue-laden poetry that begins an enthusiastic correspondence among England's news-reading public. Not one to be left behind, Morse writes a letter of his own--and follows a twisting path through the Wytham Woods that leads to a most shocking murder.

God only knows what possessed Bill Bryson, a reluctant adventurer if ever there was one, to undertake a gruelling hike along the world's longest continuous footpath—the Appalachian Trail. The 2,000-plus-mile trail winds through 14 states, stretching along the east coast of the United States, from Georgia to Maine. It snakes through some of the wildest and most spectacular landscapes in North America, as well as through some of its most poverty-stricken and primitive backwoods areas. With his offbeat sensibility, his eye for the absurd, and his laugh-out-loud sense of humour, Bryson recounts his confrontations with nature at its most uncompromising over his five-month journey. An instant classic, riotously funny, A Walk in the Woods will add a whole new audience to the legions of Bill Bryson fans.

Continuing the epic foot journey across Europe begun in A Time of Gifts, Patrick Leigh Fermor writes about walking from Hungary to the Balkans. The journey that Patrick Leigh Fermor set out on in 1933—to cross Europe on foot with an emergency allowance of one pound a day—proved so rich in experiences that when much later he sat down to describe them, they overflowed into more than one volume. Undertaken as the storms of war gathered, and providing a background for the events that were beginning to unfold in Central Europe, Leigh Fermor's still-unfinished account of his journey has established itself as a modern classic. Between the Woods and the Water, the second volume of a projected three, has garnered as many prizes as its celebrated predecessor, A Time of Gifts. The opening of the book finds Leigh Fermor crossing the Danube—at the very moment where his first volume left off. A detour to the luminous splendors of Prague is followed by a trip downriver to Budapest, passage on horseback across the Great Hungarian Plain, and a crossing of the Romanian border into Transylvania. Remote castles, mountain villages, monasteries and towering ranges that are the haunt of bears, wolves, eagles, gypsies, and a variety of sects are all savored in the approach to the Iron Gates, the division between the Carpathian mountains and the Balkans, where, for now, the story ends.
