1)Trane XE70 is a good funance. 2)The filter is ajar causing dirt to enter the duct work. 3)The duct tape and cardboard patch on the duct does not help. 4) The biggest concern is the rusty screws and water marks on the funance. Most likely, the condensation pan is either corroded or the condensate pump failed pouring water on the heat exchanger.

Trane has been manufacturing high-efficiency, integrated home heating systems for more than a century. A key component to any Trane furnace's efficiency is the proper operation of the unit's pilot light, which ignites the burners to heat a home when they're signaled by the thermostat that the room temperature has dropped below the desired level.
