~~Tropical Fruits Crop Production Science~~  
However, coverage in this book is limited to the the most important fruits that grow in most tropical climates. Volume 2, Tropical Fruits (Crop Production Science in Horticulture) provides coverage of more minor fruits. There are even more minor fruits that receive no coverage in either volume. Maybe there'll be a volume 3 some day.

Abstract. This book is one the 23 volumes in the Crop  
Production Science in Horticulture Series focusing on  
horticultural crops from major production systems in  
temperate, subtropical and tropical climatic areas. The  
first volume on tropical fruits presented the general  
aspects of tropical fruit production and covered the  
major tropical fruits in the international trade, such as  
banana, pineapple, pawpaw, mango and avocado.

Propagation & cultural practices from ancient to  
modern are described to show the regional differences  
that environmental and biological pressures exert on  
fruit production and fruit quality. Tropical Fruits is  
essential reading for students and teachers of  
horticulture as well as horticultural industry personnel  
and policy-makers.
