#### Lesson 1 - Saving and Investing - Put Money to Work

Saving and investing often are used interchangeably, but there is a difference. Saving is setting aside money you don't spend now for emergencies or for a future purchase. It's money you want to be able to access quickly, with little or no risk, and with the least amount of taxes.

#### Investing: The Difference Between Saving and Investing

The words "saving" and "investing" are sometimes used interchangeably, but when it comes right down to it, we should be engaged in both to secure our financial future. A shared characteristic of...

#### Saving vs. Investing: Understanding the Key Differences

Because of these characteristics, savings dollars generally yield a low rate of return and do not maintain purchasing power. Investing, on the other hand, focuses on increasing net worth and achieving long-term financial goals. Investing involves risk (of loss of principal) and is to be considered only after you have adequate savings. Savings vs. Investment dollars
